**Trail Project Detailed Description**

These extra funds will cover extra gravel that was needed. Our original plan for the parking lot was not large enough for vehicles with trailers to turn around and the grade going up to the trail head needed some hard pack gravel to restore the path which we did not plan for. Volunteers were not paid so we will use that allocation to make up the sign costs. Relocation of the registration booth was not possible due to wood rot so we had to purchase materials for a new one.

**Recap:**

The Embarrass ATV Park would like to expand summer recreation activities and promote safety by developing approximately 2 miles of Off-Highway Motorcycle trails on a portion of unused property to keep separate ATV/UTV's and OHMs. Included in this development we will need to relocate a registration booth. We will have to map out our trail using GPS to ensure proper distance from wetlands and other trouble areas but maximize possible mileage. We would like to level out a 50ft x 100 ft spot and put gravel for a parking lot at the entrance for safety and accountability. We will need to purchase informational, directional, and safety signs as well as posts to mount them on. Locals in Tigerton are in the process of forming an OHM club which will be the primary labor, some tasks will be done by the Village of Tigerton. This is Phase 1 of the project, eventually more trails will be laid with hopes of creating a multi use trail system on the existing ATV/UTV trails.
