REPLY TO ATTENTION OF
REGULATORY BRANCH

Regulatory File No. 2017-03856-MHK October 5, 2018

Mr. Richard Reaves
Jacobs
6600 Peachtree Dunwoody Road
400 Embassy Row, Suite 600
Atlanta, Georgia 30326

Dear Mr. Reaves:

This letter is in response to your request for an approved jurisdictional determination for Foxconn Parcels 409 and 413 on Prairie View Drive located in Section 32, Township 3 North, Range 22 East, Racine County, Wisconsin. The review areas for our jurisdictional determinations are identified on the enclosed exhibits labeled MVP-2017-03856-MHK Prairie View Drive W1 Page 1 and MVP-2017-03856-MHK Prairie View Drive W2 Page 1.

The review areas contain no waters of the United States subject to Corps of Engineers (Corps) jurisdiction. Therefore, you are not required to obtain Department of the Army authorization to discharge dredged or fill material within these areas. The rationale for these determinations is provided in the enclosed Approved Jurisdictional Determination forms.

These determinations have been conducted to identify the limits of the Corps Clean Water Act jurisdiction for the particular site identified in this request. These determinations may not be valid for the wetland conservation provisions of the Food Security Act of 1985, as amended. If you or your tenant are USDA program participants, or anticipate participation in USDA programs, you should request a certified wetland determination from the local office of the Natural Resources Conservation Service prior to starting work.

If you object to the approved jurisdictional determinations, you may request an administrative appeal under Corps regulations at 33 CFR 331. Enclosed you will find a Notification of Appeal Process (NAP) fact sheet and Request for Appeal (RFA) form. If you request to appeal the determinations, you must submit a completed RFA form to the Mississippi Valley Division Office at the address shown on the form.

In order for an RFA to be accepted by the Corps, the Corps must determine that it is complete, that it meets the criteria for appeal under 33 CFR 331.5, and that it has been received by the Division Office within 60 days of the date of the enclosed NAP. It is not necessary to submit an RFA form to the division office if you do not object to the determinations in this letter.

These approved jurisdictional determinations may be relied upon for five years from the date of this letter. However, the Corps reserves the right to review and revise the determinations in response to changing site conditions, information that was not considered during our initial review, or off-site activities that could indirectly alter the extent of wetlands and other resources on-site. The determinations may be renewed at the end of the five year period provided you submit a written request and our staff are able to verify that the limits established during the original determination are still accurate.

Regulatory Branch (File No. 2017-03856-MHK)

If you have any questions, please contact me in our Brookfield office at (651) 290-5733 or Marie.H.Kopka@usace.army.mil. In any correspondence or inquiries, please refer to the Regulatory file number shown above.

Sincerely,

Marie H. Kopka

This aquatic resource was delineated by TRC Environmental Corporation in 2018 and is 0.24 acre in size. The ditch is constructed wholly in uplands and drains only uplands. This ditch does not have a relatively permanent flow of water and is not a water of the U.S. The determination of no jurisdiction is in accordance with the 2008 Rapanos Guidance.**

1. Waters of the U.S.: N/A

2. Non-regulated waters/wetlands (check if applicable):¹

- Potentially jurisdictional waters and/or wetlands were assessed within the review area and determined to be not jurisdictional. Explain: **The review area contains 1 intrastate wetland (Wetland 2) which was delineated by TRC Environmental Corporation in 2018. The wetland is isolated with no surface or shallow subsurface connection to the Pike River to the east. This aquatic resource is not bordering, neighboring or contiguous with another water of the U.S. It is not separated from other WOUS by man-made dikes, barriers, or berms. The surrounding land use consists mostly of agricultural with some residential and transportation uses. The disturbance of surrounding land uses precludes an ecological connection to a WOUS.**

This aquatic resources does not support a link to interstate or foreign commerce; is not known to be used by interstate or foreign travelers for recreation or other purposes; does not produce fish or shellfish that could be taken and sold in interstate or foreign commerce; and is not known to be used for industrial purposes by industries in interstate commerce. Therefore, the Corps has determined that Wetland 2 is not regulated by the Corps under Section 404 of the Clean Water Act.

If you received a Letter of Permission (LOP), you may accept the LOP and your work is authorized. Your signature on the Standard Permit or acceptance of the LOP means that you accept the permit in its entirety, and waive all rights to appeal the permit, including its terms and conditions, and approved jurisdictional determinations associated with the permit.
 - **OBJECT:** If you object to the permit (Standard or LOP) because of certain terms and conditions therein, you may request that the permit be modified accordingly. You must complete Section II of this form and return the form to the district engineer. Your objections must be received by the district engineer within 60 days of the date of this notice, or you will forfeit your right to appeal the permit in the future. Upon receipt of your letter, the district engineer will evaluate your objections and may: (a) modify the permit to address all of your concerns, (b) modify the permit to address some of your objections, or (c) not modify the permit having determined that the permit should be issued as previously written.
