Leveling the playing field for all hunters by allowing for a one buck only harvest tag regardless of your weapon choice.

Opportunities, fairness, and quality of the hunt are all factors considered when assessing the deer hunt. Our state has traditional bow, compound bow, crossbow, firearms, and muzzleloader hunters. We have public, private, ag-land, and woodland hunters. Everyone has his opinion about what a quality hunt is, which weapon or season is more or less fair and who has more or less opportunity than the other. Rather than restructure the traditional WI deer season to help create opportunity, why not level the playing field. Imagine what would happen if no matter the weapon or season you were only allowed one buck tag only? Would meat hunters suffer from only being able to put one buck in the freezer? Would the “gotta get a buck” hunter suffer from only shooting one buck? Would the trophy hunter suffer from only getting one record class buck on the wall? Imagine the opportunities whether you were a private land hunter or public land hunter if you were only allowed one buck. Maybe, just maybe, that 2nd buck that would have filled tag #2 would walk past a first time hunter. That’s how opportunities are made for more hunters.

Would you support the Conservation Congress working with State Legislative to create more opportunities for all hunters by limiting hunters to one buck only per year regardless of weapon or season.
