

Citizen Resolution # 660621

(For Hearing Officer completion)

antlerless option included with archery liscense

In the past, when purchasing an archery license, the option for harvest was either a buck or a doe. For some reason this option was deleted in the past and the archery license was only good for harvesting one buck. With the current emphasis on harvesting antlerless deer, it only makes sense to go back to the previous option of an either sex archery license.

Be it resolved that the WCC work with the DNR and NRB to establish an option for harvest of either sex deer with the purchase of an archery deer license.
