

HOW TO: Add a username/password to your Go Wild account

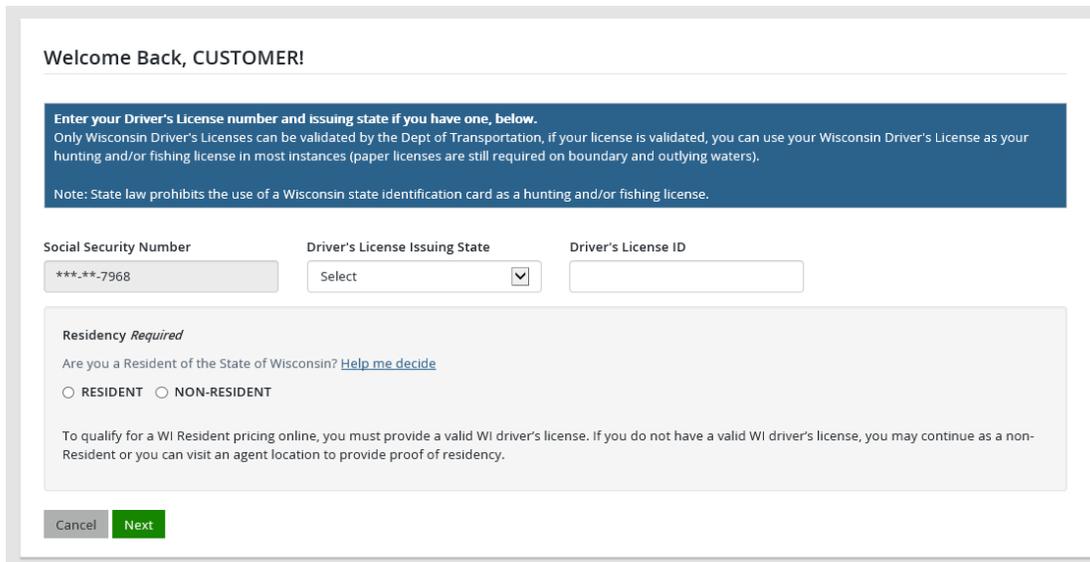

STEP 1: Log in / create your Go Wild account

- Visit the website gowild.wi.gov. If you have not yet created a username/password, use the “Account Lookup” option to search for your account or create a new account if necessary.

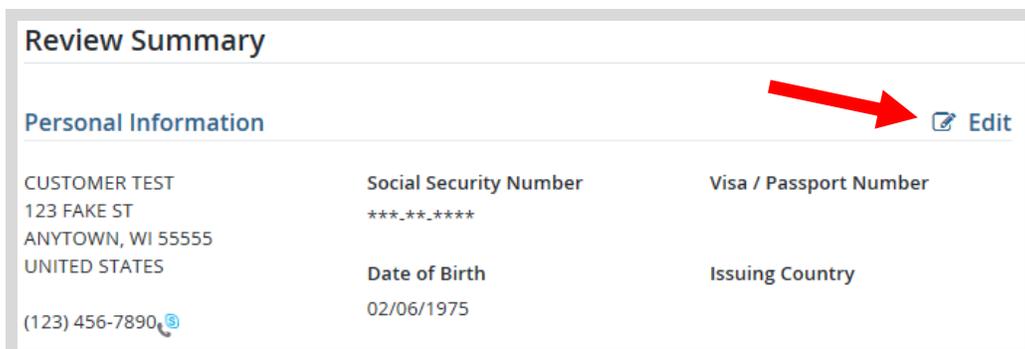

The image shows the Go Wild login page. On the left is the Go Wild logo featuring a deer silhouette and the text 'go WILD'. On the right, there are two input fields: 'Username' and 'Password'. Above the Username field is a link 'Forgot username?'. Above the Password field is a link 'Forgot password?'. Below the Password field, there is a link 'Don't have one? Use Account Lookup' with a red arrow pointing to it, and a green 'Log In' button.

- **Welcome Back!** Enter your driver license information (optional). If you do not wish to enter your driver license, leave both the DL state and DL number blank. Next indicate your state residency (Wisconsin resident or nonresident). If you are unsure of your state residency, select the [Help me decide](#) link. *Note: To change your residency from nonresident to resident, all customers age 18 and over must include a WI driver license number.*

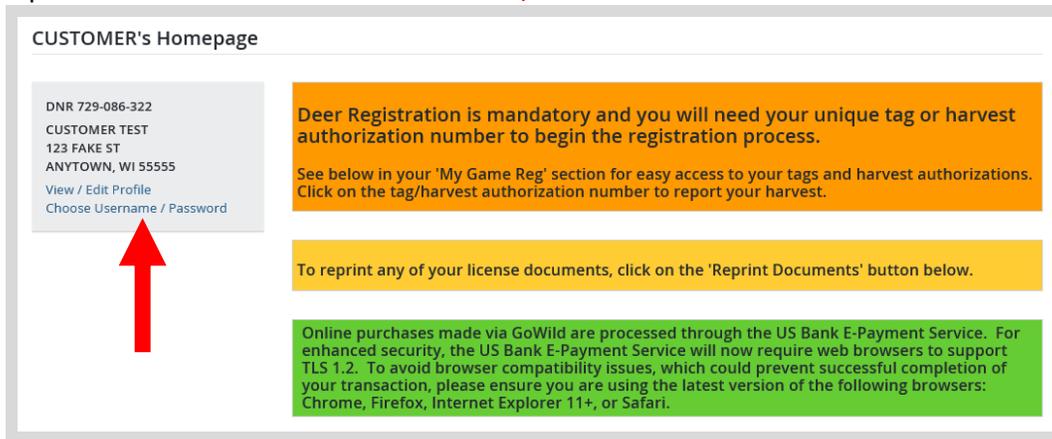

The image shows the 'Welcome Back, CUSTOMER!' form. It includes a blue instruction box: 'Enter your Driver's License number and issuing state if you have one, below. Only Wisconsin Driver's Licenses can be validated by the Dept of Transportation, if your license is validated, you can use your Wisconsin Driver's License as your hunting and/or fishing license in most instances (paper licenses are still required on boundary and outlying waters). Note: State law prohibits the use of a Wisconsin state identification card as a hunting and/or fishing license.' Below this are three input fields: 'Social Security Number' (masked as '***.**-7968'), 'Driver's License Issuing State' (a dropdown menu with 'Select' and a checkmark), and 'Driver's License ID'. A 'Residency Required' section asks 'Are you a Resident of the State of Wisconsin?' with radio buttons for 'RESIDENT' and 'NON-RESIDENT', and a 'Help me decide' link. A note explains that a valid WI driver's license is required for resident pricing. At the bottom are 'Cancel' and 'Next' buttons.

- **Review Summary.** Check your personal information (address, phone, email, etc) for accuracy. If changes need to be made, select the [Edit](#) icon. Once everything is confirmed correct, select the [Yes](#) button at the bottom.

The image shows the 'Review Summary' page. It has a title 'Review Summary' and a section 'Personal Information'. A red arrow points to an 'Edit' icon (a pencil) next to the 'Personal Information' header. Below the header, there are three columns of information: 'CUSTOMER TEST' with address '123 FAKE ST ANYTOWN, WI 55555 UNITED STATES' and phone '(123) 456-7890'; 'Social Security Number' with value '***.**-7968'; and 'Date of Birth' with value '02/06/1975'. There are also labels for 'Visa / Passport Number' and 'Issuing Country'.

- **Customer Homepage.** You have made it to your account Homepage! Locate the customer information area at the top and Select the link to **Choose Username/Password**.

- **Manage Account Security.** 1) Enter a unique **username** that you can use to log into your account in the future. 2) Create a **password** and enter it in twice for confirmation. 3) Create a **Security question and answer**. This is used as a security measure should your username or password become "locked". Use the guidelines listed on the page to create these items. Select **Save Changes** when finished.

The screenshot shows the "Manage Account Security" form. It has a title "Manage Account Security" and a sub-section "Create Username and Password". Below this, there are instructions: "Your Username must be between 5-20 characters and consist of letters and/or numbers." and "Your Password must be between 7-20 characters and MUST contain a combination of letters and either numbers or special characters (except the '@' sign). Passwords and Security Answers are case sensitive." There are three input fields: "Username Required" (with a red "1" next to it), "Create New Password Required" (with a red "2" next to it), and "Confirm New Password Required" (with a red "2" next to it). Below these is the "Update Security Question" section with instructions: "Security Question Required" and "Security Answer Required". There are two input fields for the security question and answer, with a red "3" next to the answer field. At the bottom, there are two buttons: "Cancel" and "Save Changes".

Congratulations! You have successfully created a username/password for your Go Wild account. You now have an additional option to log into your account in the future (see image on step 2 of these instructions). Make sure to secure your username, password, and security answer to make it available for future use.
