

# HOW TO: Add a username/password to your Go Wild account

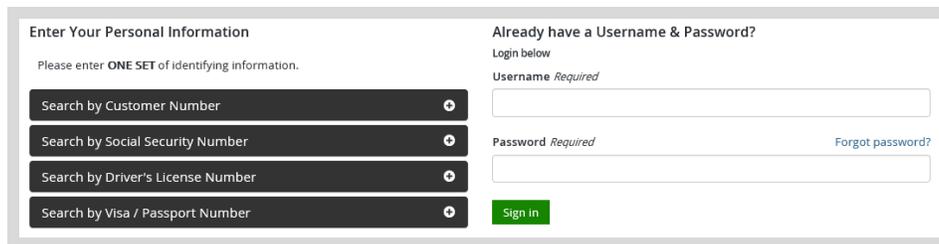

## STEP 1: Log in / create your Go Wild account

- Visit the website [gowild.wi.gov](http://gowild.wi.gov). If you have already set up a username/password for your account, you may log in directly using that. If you have not yet created a username/password, use the “Account Lookup” option to search for your account or create a new account if necessary.

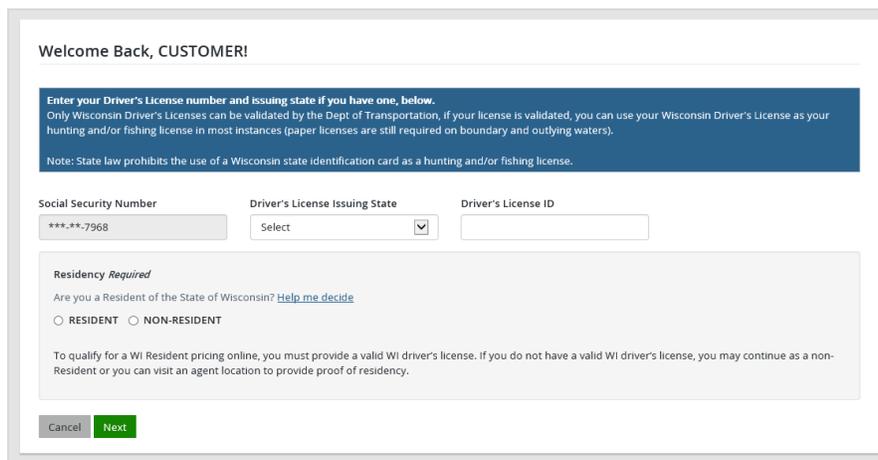

The image shows the Go Wild login page. On the left is the Go Wild logo featuring a deer silhouette. To the right are two input fields: 'Username' and 'Password'. Each field has a 'Forgot' link (e.g., 'Forgot username?'). Below the password field is a link that says 'Don't have one? Use Account Lookup' with a red arrow pointing to it. A green 'Log In' button is located to the right of the 'Use Account Lookup' link.

- **Access your Account** - Search for your existing customer record using one of the four personal information options on the left. Or enter your username and password for your account, if you have already created one.

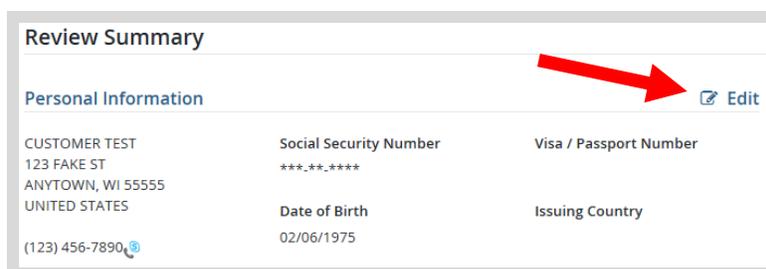

The image shows a form titled 'Enter Your Personal Information' and 'Already have a Username & Password?'. The left side has four search options: 'Search by Customer Number', 'Search by Social Security Number', 'Search by Driver's License Number', and 'Search by Visa / Passport Number'. The right side has a 'Login below' section with 'Username Required' and 'Password Required' fields, each with a 'Forgot password?' link, and a green 'Sign in' button.

- **Welcome Back!** Enter your driver license information (optional). If you do not wish to enter your driver license, leave both the DL state and DL number blank. Next indicate your state residency (Wisconsin resident or nonresident). If you are unsure of your state residency, select the [Help me decide](#) link. *Note: To change your residency from nonresident to resident, all customers age 18 and over must include a WI driver license number.*

The image shows a 'Welcome Back, CUSTOMER!' form. It includes a blue box with instructions: 'Enter your Driver's License number and issuing state if you have one, below. Only Wisconsin Driver's Licenses can be validated by the Dept of Transportation, if your license is validated, you can use your Wisconsin Driver's License as your hunting and/or fishing license in most instances (paper licenses are still required on boundary and outlying waters). Note: State law prohibits the use of a Wisconsin state identification card as a hunting and/or fishing license.' Below this are fields for 'Social Security Number' (\*\*\*.\*\*.7968), 'Driver's License Issuing State' (a dropdown menu with a checkmark), and 'Driver's License ID'. There is also a 'Residency Required' section with radio buttons for 'RESIDENT' and 'NON-RESIDENT', and a 'Help me decide' link. At the bottom are 'Cancel' and 'Next' buttons.

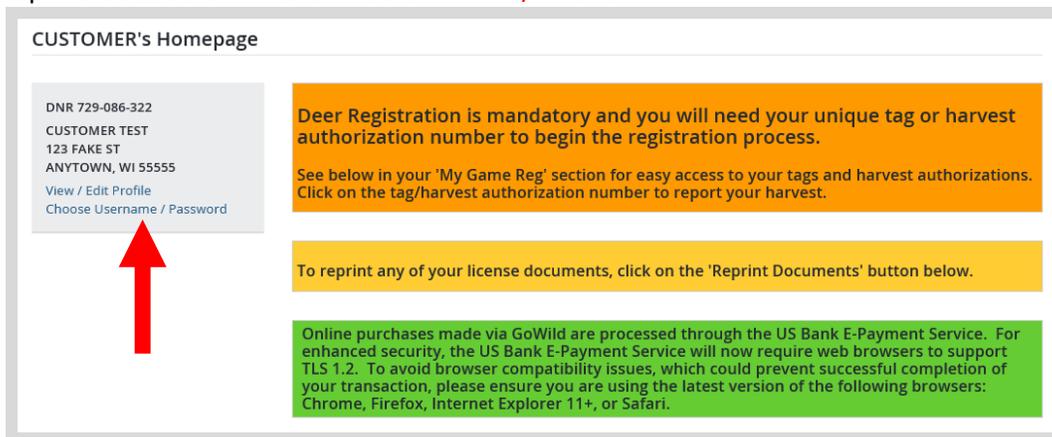

- **Review Summary.** Check your personal information for accuracy. If changes need to be made, select the [Edit](#) icon. **IT IS VERY IMPORTANT FOR THE ADDRESS TO BE CURRENT IN ORDER FOR YOU TO RECEIVE YOUR REGISTRATION MATERIALS!** If everything is correct, select the [Yes](#) button.

The image shows a 'Review Summary' form. It has a section titled 'Personal Information' with an 'Edit' icon (a pencil) to its right, with a red arrow pointing to it. Below this is a table of personal information:

CUSTOMER TEST 123 FAKE ST ANYTOWN, WI 55555 UNITED STATES (123) 456-7890	Social Security Number ***.**.****  Date of Birth 02/06/1975	Visa / Passport Number  Issuing Country
--	--	---

- **Customer Homepage.** You have made it to your account Homepage! Locate the customer information area at the top and Select the link to **Choose Username/Password**.

- **Manage Account Security.** 1) Enter a unique **username** that you can use to log into your account in the future. 2) Create a **password** and enter it in twice for confirmation. 3) Create a **Security question and answer**. This is used as a security measure should your username or password become “locked”. Use the guidelines listed on the page to create these items. Select **Save Changes** when finished.

The screenshot shows the 'Manage Account Security' form. It has three sections: 'Create Username and Password', 'Update Security Question', and 'Update Security Answer'. The 'Create Username and Password' section has a 'Username Required' field with a red '1' next to it. Below it are two 'Password Required' fields, one for 'Create New Password' and one for 'Confirm New Password', with a red '2' next to the second field. The 'Update Security Question' section has a 'Security Question Required' field with a red '3' next to it. Below it is a 'Security Answer Required' field. At the bottom are 'Cancel' and 'Save Changes' buttons.

**Congratulations!** You have successfully created a username/password for your Go Wild account. You now have an additional option to log into your account in the future (see image on step 2 of these instructions). Make sure to secure your username, password, and security answer to make it available for future use.
