Creating a Web Access Management (WAMS) User ID
• WAMS IDs are personal and private and should be treated as such
  • Sharing a WAMS ID or passing it onto the next employee can result in falsified reports and closure of the WAMS account.
  • Each user who wants to look at, enter, or submit data must have their own WAMS account in their name.

• Your WAMS ID goes with you from job to job, you do not create two IDs for two jobs or a new ID each time you switch employers.
• To create a WAMS ID see slide 4

• To add additional roles/responsibilities to your current WAMS account see slide 12

Public Disclosure

Much of the information that is collected by the State of Wisconsin is confidential and is managed accordingly. The State has taken appropriate steps to safeguard the integrity of this information and to prevent access by unauthorized persons.

The Wisconsin Public Records Law (Wis. Stat. § 19.31 - 19.39) exists to ensure that government is open and that the public has access to appropriate records and information that are in the possession of the State government. At the same time, there are exceptions to this law that serve various needs, including the privacy of individuals. Certain information that the State manages is confidential. This includes identity and security data that is used to control access to information, and to protect the privacy of individuals and organizations that receive services from, or are regulated by, the State. The State will make every effort to secure this information and to protect the privacy of individuals who have personally identifiable information stored in their user profile.

The State may aggregate user profile information and usage to determine trends and to facilitate sound decisions regarding system design and future application deployments. However, the State will not sell the information managed in your user profile, in either a specific or a generalized format.

Access and Correction of Personal Information

Individuals will be allowed to view personal information relating to their user profile and to update the contact information in their user profile (address, telephone, or e-mail address). Passwords will be secured and will be stored in an encrypted format.

Use of Cookies

A cookie is a small amount of data, which may include an anonymous unique identifier, that is sent to your browser from a Web site's computers and may either be used during your session (session cookie) or may be stored on your computer's hard drive (persistent cookie). Cookies may contain data about a user's movements during their visit to the Web site. If your browser software is set to allow cookies, a Web site can send its own cookie to you. A Web site that has set a cookie can only access those cookies it has sent to you, it cannot access cookies sent to you by other sites.

When you request a Wisconsin User ID and password, and when you use your Wisconsin User ID to access State services over the Internet, a session cookie will be sent to your browser and stored in your computer's memory. The cookie will be used to maintain session information, so that you do not have to re-enter your Wisconsin User ID and password when you navigate different pages and/or services. Your privacy is best protected if you close your browser after you are done using applications that use session cookies.

Follow the instructions in this e-mail to activate your WAMS account. Your Wisconsin User ID and password are your keys to doing secure business with the State of Wisconsin over the Internet. They should be considered as important as your signature. Do not share your Wisconsin User ID or password with anyone. You are the only person who will know your password. It is your obligation to protect these by keeping them confidential.

If you did not request a Wisconsin User ID and password, please disregard this e-mail. If you do nothing, this account will be automatically deleted after four days.

To activate your account click on the web-link below. Once the login page is visible in your Internet browser, you will have 5 minutes to activate your account by entering your Wisconsin User ID and password.

http://on.wisconsin.gov/WAMS/AA?RSAction=AA&AAID=zMGNrGzGqGGVGYGiEG

If you are not able to activate your account within the allotted 5 minutes, click on the web-link above to try again.

(After you have activated your account, you may delete this e-mail.)

If you receive an error when you click on the above web-link try the following tips:

* Some e-mail applications do not handle Web links properly. If you got an error after clicking on the link you may need to copy the link from the message to your Internet browser's address line. Make sure that you get the entire web-link. If the web-link is split into two lines and the second line is not underlined like the first line, copy both lines into the Internet browser's address line.

* If you received a 'your browser must support cookies' error and you have your browser configured to allow cookies, open a new browser window and copy the web-link into the Internet browser's address line.

* Many Internet browsers have the ability to remember passwords for you. This feature may cause problems if the password it remembers does not match your current password. If you are having password problems, and the password is filled out on the login page when it loads, try clearing the password field and re-entering your password. We recommend that you turn off the password memory feature of your Internet browser.
