

# Citizen Resolution # 720120

(For Hearing Officer completion)

## White Deer Season

**At present the number of white deer (not albino) in Wood County is increasing tremendously. In some areas of the county as many as 40% of the deer seen are white. These white (not albino) deer are more aggressive than the Native deer and therefore do a lot of the breeding. This increase the percentage of white (not albino) deer even more.**

**Be it resolved that a season on white (not albino) deer be established in Wood County to address this issue.**
