

Citizen Resolution # 041321

(For Hearing Officer completion)

Imposing Stricter Regulations on PFAS Chemicals

PFAS chemicals (per- and polyfluoroalkyl substances) are found in objects such as Teflon, water resistant clothing, food packaging, and firefighting foam. These man made chemicals are carcinogenic, disrupt early childhood development, interfere with human endocrine systems, and pose a significant threat to our aquatic species and ecosystems. PFAS water contamination is undoubtedly a pervasive environmental issue; there are more than 50 PFAS contamination sites across Wisconsin.

Due to the historical lack of regulations of PFAS chemicals, Wisconsin communities have suffered from consuming contaminated fish and drinking contaminated water. Fishing is an integral part of Wisconsin life, but its future is threatened by PFAS contamination. Because PFAS chemicals accumulate in fish, the DNR has issued fishing advisory warnings on major waterways around the state including Lake Superior. Communities reliant upon fishing such as the GLIWC member tribes are particularly vulnerable.

Wisconsin's drinking water has also been impacted. Hundreds of state residents are now reliant on bottled water as their well water is unsafe to drink due to high levels of PFAS. To address this environmental and public health crisis, it is imperative that stronger regulations are imposed on PFAS chemicals in order to reduce future PFAS contamination sites and clean up waterways that are already contaminated.

THEREFORE, BE IT RESOLVED, the DNR should continue to advocate for strong PFAS protections and clean-up to ensure that everyone has access to clean drinking water and safe fish. This should begin with testing drinking water across Wisconsin.

Resolutions introduced at each Spring Hearing are public documents under Wisconsin's Open Records law [ss. 19.31-19.39, Wis. Stats.] and will be posted online for the public to review. Any personally identifiable information will be available to the public but will only be used by the Department for administrative purposes.

Please print typed resolution on 8 ½ X 11 white paper (one-sided) and provide the WCC County Chair with TWO COPIES at the spring hearing. Only the individual author or designated representative may present the resolution. The author or designated representative must be present at the time the resolution is introduced. No more than two resolutions may be introduced by any person during the Congress portion of the spring hearings.

Contact one of your [local WCC delegates](#) with questions or for assistance with writing your resolution.
