

Citizen Resolution # 070121

(For Hearing Officer completion)

No wolf hunt until a new scientifically sound management plan is in place

WHEREAS: The mismanaged Gray wolf hunt February 2021 was a disgrace. Not to mention a public relations nightmare. Not only did special interest hounding groups legally conspire to delay reporting their kills so that the quotas were obliterated, but the mechanism for reporting those kills in a timely fashion dictated by the DNR were AGAIN proven to be impotent. This resulted in the quota of 119 being blown past and in fact went 97 over quota. So instead of a possibility of 50 or 60 pregnant females being killed, the total was doubled to a potential of 100 or more. Conservatively we are talking about 400 pups that will never hit the ground. NOW THEREFORE BE IT RESOLVED: No Gray wolf hunt shall take place until a comprehensive accurate count of the damage of the February 2021 wolf hunt is made, and a new scientifically formulated management plan is put into place that will take into consideration OVER QUOTAS in multiple hunts.

Resolutions introduced at each Spring Hearing are public documents under Wisconsin's Open Records law [ss. 19.31-19.39, Wis. Stats.] and will be posted online for the public to review. Any personally identifiable information will be available to the public but will only be used by the Department for administrative purposes.

Please print typed resolution on 8 ½ X 11 white paper (one-sided) and provide the WCC County Chair with TWO COPIES at the spring hearing. Only the individual author or designated representative may present the resolution. The author or designated representative must be present at the time the resolution is introduced. No more than two resolutions may be introduced by any person during the Congress portion of the spring hearings.

Contact one of your [local WCC delegates](#) with questions or for assistance with writing your resolution.
