

Citizen Resolution # 090521

(For Hearing Officer completion)

Lake Wissota (Chippewa County) - walleye size limit and slot changes

Current walleye regulations have a 14"-18" slot on Lake Wissota with no minimum length for anglers. In the years I've aggressively fished the lake, this slot and no minimum has not improved the size structure of the walleyes in the lake. Proposed resolution is for the regulations for walleyes on Lake Wissota to change to a minimum length of a walleye to be established of 14" and a new slot of 16"-24". Limits would be proposed at three total fish between 14-16" with one over 24" being allowed in the limit of three fish. Due to Lake Wissota's slow growth rate, this would help protect the spawning walleyes in this water and increase angler satisfaction with a better size walleye harvest.

Resolutions introduced at each Spring Hearing are public documents under Wisconsin's Open Records law [ss. 19.31-19.39, Wis. Stats.] and will be posted online for the public to review. Any personally identifiable information will be available to the public but will only be used by the Department for administrative purposes.

Please print typed resolution on 8 ½ X 11 white paper (one-sided) and provide the WCC County Chair with TWO COPIES at the spring hearing. Only the individual author or designated representative may present the resolution. The author or designated representative must be present at the time the resolution is introduced. No more than two resolutions may be introduced by any person during the Congress portion of the spring hearings.

Contact one of your [local WCC delegates](#) with questions or for assistance with writing your resolution.
