(For Hearing Officer completion)

2021 WI Conservation Congress Spring Hearing Resolution

Whereas, the WI Conservation Congress overwhelmingly supported a resolution in 2011 favoring 350 or less wolves in the wolf management plan in;
And, whereas, there are many farm and wildlife organizations that support this goal, along with 36 county board resolutions;
And, whereas, the WI wolf estimated wolf population, as measured at its lowest point in spring 2020, was determined to be a most probable number of 1195;
And, whereas, the WI wolf depredations, harassments, and threats list has reached higher numbers since the harvest years of 2012-2014;
Therefore, be it resolved that the WI Conservation Congress renews support for the previously approved wolf goal of 350 or less in upcoming wolf management plan deliberations in Wisconsin.
