

Citizen Resolution # 510321

(For Hearing Officer completion)

Reduce Poaching by Banning Shining

I work very hard every year helping my boyfriend plant grain crops and manage property for the enhancement of local deer herds for all to legitimately enjoy. I enjoy just viewing the wild animals in their natural, uninterrupted state. It has become very apparent in the Price County location as a whole there are many poachers that take advantage of shining laws to steal deer from law abiding sportsman and landowners alike who have proudly dedicated untold time and monetary resources to their properties to benefit every neighboring landowner and public land hunter alike.

Fair chase is an amazing natural approach to the hunting of deer, however nefarious individuals with their spotlights, crossbows and guns are stealing this precious resource and making many property owners and managers disappointed to the point of exhaustion. If we lose land managers on the private lands which provide quality year round food sources for the animals, we will in turn lose animal population and license sales will fall. Lets work together to reign in the actions of the few who are working hard to ruin it for us all.

Consider the benefits of a Shining ban, something that truly has no positive impact on the end goal of herd management to begin with. Sincerely, Natalie Loudon
