(For Hearing Officer completion)

## Deer Management Tool - Replacement Either Sex Tag for CWD positive deer

In some counties of the State, Deer Populations are above population goals. As a result, forest regeneration is suffering, understory plants are over browsed, agricultural damage is a concern and Chronic Wasting Disease (CWD) is spreading rapidly and growing in prevalence.

This proposal seeks to increase antlerless deer harvest by issuing an "Either Sex Tag" to a hunter who harvests an antlerless deer that comes back CWD positive. This will increase antlerless deer harvests. There would be a limit of 1 replacement tag per hunter and the Replacement tag could be used in the year the deer was harvested or the following year, would be weapon specific and would only be available in counties where the CDAC requested as part of their Deer Management Recommendations. These tags would be in addition to the Buck tags issued with each license.

Resolutions introduced at each Spring Hearing are public documents under Wisconsin's Open Records law [ss. 19.31-19.39, Wis. Stats.] and will be posted online for the public to review. Any personally identifiable information will be available to the public but will only be used by the Department for administrative purposes.

Please print typed resolution on 8 ½ X 11 white paper (one-sided) and provide the WCC County Chair with TWO COPIES at the spring hearing. Only the individual author or designated representative may present the resolution. The author or designated representative must be present at the time the resolution is introduced. No more than two resolutions may be introduced by any person during the Congress portion of the spring hearings.

Contact one of your [local WCC delegates](#) with questions or for assistance with writing your resolution.
