

Citizen Resolution # 690121

(For Hearing Officer completion)

Extend the 9 day gun deer registration deadline

Currently a deer must be registered by 5:00 pm the day after recovery. Compliance can be questionable due to several reasons. Some hunters don't have phone service, some don't have access to do it online, and some hunters just forget. The DNR in the past has made announcements during the gun season to hunters that did NOT register their deer to still go ahead and register the deer. Some hunters will and others will not. The ones that do that after the deadline wonder if they will get a citation for late registration.

This is very confusing and not very professional. To simplify this and get better compliance and a more accurate harvest count extend the registration deadline to 5:00 pm the day after the gun season closes. This was how it was done years ago. Would you support the WCC working with the DNR and legislature to extend the gun deer registration deadline to 5:00 pm the day after season closes?
