

Citizen Resolution # 720421

(For Hearing Officer completion)

Create a two season wolf hunt

Currently there is a wolf season that begins the first Saturday of November until Feb. 28. This resolution would create a split in the permits so that there would be an equal amount of tag authorizations for two seasons. The first season would begin the first Sat. of Nov. until Dec. 31. Second season would begin the following day on Jan. 1 and continue until the last day of February.

If the quota for either season should be met before the end of that season period, the Department could use an emergency rule to close that season. This would allow more people with different methods of species management to participate in our current wolf season. The authorizations would still be statewide and when season and zones quotas are met for that zone, the department could close that zone. All the current methods of take would still be allowed.

Do you support the Conservation Congress work with the state legislature to revise the current wolf season?

Resolutions introduced at each Spring Hearing are public documents under Wisconsin's Open Records law [ss. 19.31-19.39, Wis. Stats.] and will be posted online for the public to review. Any personally identifiable information will be available to the public but will only be used by the Department for administrative purposes.

Please print typed resolution on 8 ½ X 11 white paper (one-sided) and provide the WCC County Chair with TWO COPIES at the spring hearing. Only the individual author or designated representative may present the resolution. The author or designated representative must be present at the time the resolution is introduced. No more than two resolutions may be introduced by any person during the Congress portion of the spring hearings.

Contact one of your [local WCC delegates](#) with questions or for assistance with writing your resolution.
