Attachments: Pipe Elevation Data.pdf

Matt – I have attached a map that shows surface elevations and pipe invert elevations at the manhole locations – It is from our GIS system – let me know if something doesn't look right or if you have questions on it

/Dave

Dave/Eric- I would like to compare groundwater elevation to sewer pipe depth in the neighborhood, is there a resource I could use that would tell me the depth these pipes were put in at?

Thanks,
Matt

Matt – I have attached the test results and maps

The purpose of the close up of the intersection at Thomas Street and Emter St is to show the two interceptor lines are not connected.

Also, two of the samples were collected from MH#5 – one from the discharge of the pipe from McCleary St and one from the discharge of the pipe running down Adrian St

I will talk to Eric about setting up a phone call next week Thursday and get back to you with a proposed time

Thanks / Dave

Dave-

Below is a link to our online database for Wauleco. The last annual report we have is for 2017, it is near the bottom of the page and dated 2018-07-27
