**Subject:** Darwin Road Investigation plan

Good Afternoon Mike:

I have reviewed the workplan submitted last Friday from Corey Pagels at Shannon & Wilson. The workplan is straightforward and looks good. I did find it interesting their analysis that the fire training area may have been further west than Mead & Hunt did in their analysis. Wherever it actually was the proposed boring locations will certainly help determine the location. Please send me a text or email once the field work schedule has been set.

Let me know if you have questions. Have a good day.

Steve
