RE: WDNR BRRTS Activity #02-38-587281

Dear Mr. Neste:

Fincantieri Marinette Marine (FMM) received a letter from the Wisconsin Department of Natural Resources (WDNR) on March 9, 2021 regarding "Reported Contamination at Marinette Marine Bldg 34, 1600 Ely St, Marinette, WI." The WDNR's letter follows the November 25, 2020 report submitted by Foth Infrastructure & Environment, LLC ("Foth") on behalf of FMM, to characterize the soil and groundwater prior to commencement of construction activities associated with new ship erection buildings (Buildings 34 and 35) on FMM's property at 1600 Ely Street, Marinette WI.

FMM has engaged Foth Infrastructure & Environment, LLC (Foth) as its environmental consultant to provide input on Buildings 34 and 35 related to contaminated soil and groundwater management activities conducted by other FMM contractors and to respond to the WDNR's March 9, 2021 letter and related obligations pursuant to Wis. Admin. Code NR 700 *et al.*

Sincerely,

Jan Allman
CEO

cc: Tom Carrow, FMM
Bob Meller, Foth
Michele Frozena, Foth
