Hi Jeff,

Yes, WSP will be our consultant through this project. Brad DalSanto's contact information is below.

Would you be available to have a call this week to discuss the responsible party letter requirements and your expectations for our report? That was one idea Brad and I discussed and it would be great to make sure we are all on the same page.

**Brad DalSanto**  
Sr. Consultant, Environmental Scientist

Thanks for the update Ross.

Will you be using WSP for the ERP Investigation? If so, could you send me their contact information so I can add it to the file?

This would satisfy the first requirement of the RP letter.

Thank you

Hi Jeffrey,

Just giving you an update on the work at the L5 MP 1159 valve site. The original project scope is complete, and the trench boxes will be pulled from the excavation early this week. At that time, we will do final excavation of the trench floor. Our plan is for our environmental consultant, WSP, to have staff on site to perform field screening and collect confirmation samples.

Please let me know if you have any questions.

Thanks,

-Ross
