Subject: Re: IL Soil Disposal

Brad,

The contaminated soil (by WI standards) can go to IL. As discussed, please let us know the approximate cubic yards and where it ends up for our records. As long as IL standards say it is clean and they are willing to accept it, you will not need a formal approval from us. However, please keep this email for your records.

Hi Brad,

The hydro coordinator agreed with me last Friday but suggested I check with Steve, our supervisor. I sent an email this morning and am waiting to hear back.

Subject: IL Soil Disposal

Hi Janet,

Hope all is well and you weather the afternoon storms ok! Checking in to see if you were able to gain any input regarding soil disposal to a site in IL, where the soil is considered clean with their regulations?

Thanks!

Brad
