Subject: DNR Comments on the PFAS Work Plan-Area Wide Potable Well Investigation
Rhinelanders-Oneida County Airport

Good morning, Andrew and Dave.

Thank you for submitting the PFAS Work Plan-Area Wide Potable Well Investigation Rhinelanders-Oneida County Airport, dated October 25, 2021. The DNR reviewed the work plan and we would like additional clarification on a few items listed below. Please provide responses at your earliest convenience.

- *Response Actions (Alternative Water Management Plan)*, p. 5 – Please clarify when bottled water will be provided by the Responsible Parties to the private well owner/user. What would be the timeframe? 1 business day? Longer?
- *Response Actions (Alternative Water Management Plan)*, p. 5 – Please clarify when a confirmation sample is needed and when bottled water will be provided, before or after the confirmation sample?
- *Response Actions (Alternative Water Management Plan)*, p. 5 – Providing bottled water and point of entry treatment are considered to be interim actions. Long term solutions such as the installation of a replacement private well or municipal well should be considered.

Feel free to contact me if you have questions regarding the above points. If I missed anyone on this email correspondence, please let me know. Thanks

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.
