Subject: Site Investigation Work Plan comments for Rhinelander-Oneida County Airport (02-44-584094)

Dear Andrew, Janel , Dave, and the RP Group Members:

On July 1, 2022, a copy of the site investigation work plan prepared by AECOM was submitted to the DNR. A review fee was not provided; therefore the DNR will only provide brief comments.

- Please be advised, the work proposed may not be adequate to meet the requirements of NR 716. Given that groundwater contamination has been documented in groundwater samples from municipal and private wells at depth, the proposed investigation may not be adequate to define the degree and extent of contamination.

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.
