Hi Ross,

As I mentioned in my message, we've been waiting for the NFA fee since the NFA request was submitted on January 4, 2023. We will need to issue a notice of noncompliance if we don't receive the application fee by the end of the day on April 28, 2023.

Thank you and please let me know if you have any questions.

Hi Ross,

I still haven't been notified that we have received the NFA fee. Has that been submitted?

Thank you

Hi Jeff,

I took this snip when I got it into the system and it did not list a fee. Please let me know what the fee should be and if I can pay it by credit card. I apologize for the confusion!

Thanks,

-Ross

Hi Jeff,

We were working on it before the holidays and had a difficult time signing the document electronically. Thank you for the reminder, I was able to submit just now, with the signature page separate. You should have everything now.

Please let me know if you would like any hard copies mailed in to WDNR.

Thank you and hope you had a good holiday season.

We haven't received the application for the NFA letter for contamination that was identified on August 3, 2022 (02-02-590370), when can I expect to see that application?

Hi Jeff,

I apologize for the delay, attached is the memo Enbridge provided to Bad River Natural Resources regarding the Sugar Bush Creek sheen sampling event. Analysis of the sample supports the field determination that no sheen was caused by the Line 5 pipeline in the vicinity of Sugar Bush Creek. This memo was prepared to provide Bad River staff an update on our analysis. Please let me know if you have any questions.

Thanks,

-Ross

Hi Jeff,

Just wanted to check in and make sure this file made it to you. It was 15 MB and I know some systems will reject files that big. I didn't get any bounce back messages, so hopefully it made it to you.

Thanks,

-Ross

Hello Jeffrey,

Attached is a memo in response to the August 16, 2022 Responsible Party Letter for Enbridge Energy, Limited Partnership - Line 5 Mile Post 1159.47 Valve Site WDNR BRRTS Activity # 02-02-590370. The remedial activities at this site were successful as the confirmation sampling results are below WDNR cleanup criteria concentrations. Enbridge requests closure of the incident.

Please let me know if you have any questions or require any additional information about the site.

Thank you,

-Ross
