Re: Water Sample Results from Cedarburg Environmental
Repair Project

Dear Mr. Mathias and Mr. Nameth:

Water sampling conducted as part of the field investigation for
the Cedarburg environmental repair project has been completed.
The sample results from all three sampling rounds for monitoring
wells P-6 and MW-6 are tabulated in the following table.

Table with 6 columns: Compound, 09/89 P6/MW6, 10/89 P6/MW6, 11/89 P6/MW6, Detection Limit, MCL/E.S. Rows include 1,1,1-trichloroethane, vinyl chloride, 1,1-dichloroethane, 1,2-dichloroethane, Tetrachloroethylene, Trichloroethylene, and 1,2-dichloroethylene.

(All concentrations reported in parts per billion.)
ND = Not Detected * = proposed MCL NE = Not Established
E.S. = NR 140 Groundwater Quality Enforcement Standard
MCL = Safe Drinking Water Act Maximum Contaminant Level for Public Drinking
Water

I anticipate completion of the project report in February 1990.
Thank you for your continued cooperation with the Department of
Natural Resources.

Sincerely,
Sharon L Schaver
Sharon L. Schaver
