P.O. Box 12436
Milwaukee, WI 53212

Carroll D. Besadny
Secretary

April 3, 1989

File # 40

Ardox - Scott Pump Division
Attention: Mr. Dave Mathias
N49 W6337 Western Road
Cedarburg, WI 53012

Dear Mr. Mathias:

The purpose of this letter is to inform you that the Department of Natural Resources will be conducting an investigation of groundwater contamination in Cedarburg. This investigation is funded by the Environmental Repair Fund. We have contracted with Strand Associates, Inc. to conduct this investigation.

In order to accomplish this investigation, the Department's contractor will be collecting soil gas samples at selected sites throughout the city. One of these sites is located off of north end of Hanover Avenue and the east end of Karak Machine Shop parking lot, NE 1/4 NE 1/4, Section 34.

Soil gas sampling consists of driving a probe into the ground to a depth of 15 feet or to bedrock, whichever is first. A soil gas sample is then collected, and the probe is removed and the hole filled. There is no permanent structure or damage to property. The sample location will be marked with a stake until the investigation has been completed (scheduled project completion date is November 1989). The sampling crew should be on the site for less than two hours.

The soil gas survey is scheduled for April 1989 and you will be notified of the date and approximate time of sampling on your property.

April 3, 1989

Your cooperation in this matter is greatly appreciated. If you have any questions, please call me at 414-562-9550 or Sharon Schaver at 414-562-9539.

Sincerely,

Mark Lehman
Water Supply
