Citizen Resolution # 020522

End Killing Contests in Wisconsin

Wildlife killing contests promote indiscriminate killing of native wildlife with the use of calls, hounds, and high-tech tools. 70+ Wisconsin contests have been identified via fliers and social media; annual Moondog Madness being the largest. Petitions, billboards, LTEs, and more recently undercover contest video footage have raised public awareness and support for ending these events. In response, organizers now operate in secret using private forums, code words, undisclosed weigh-in locations, and virtual video check ins. Cash and prizes, including weapons, award teams killing the most, biggest, smallest coyote, fox, crow, rabbit, and more. The DNR does not monitor/regulate contests; they are not required to respond to hounds at large or trespassing on private land. Wanton cruelty and waste, and illegal disposal of carcasses on public land have been reported to and documented by WIDNR (e.g., 5/2018 Morgan Falls area, Ashland County; 4/2019 Old HW 2, Bayfield County; 2/2017 Shiocton). Photos of piles of mutilated, bullet-ridden furs indicate many pelts are useless. Increasing support for this resolution shows hunters and non hunters alike do not endorse indiscriminate killing for fun, prizes, and cash. This divisiveness over contests is evident on social media; many hunters express concern that public support for traditional, ethical, humane, fair chase hunting is at stake. 8 states have banned competition killing, all citing 70 conservation scientists' 2018 findings that indiscriminate killing serves no effective management tool. A ban on contests would not impact lethal take of coyote for livestock protection, or any form of hunting including fishing and "Big Buck" competitions.

Do you support the Conservation Congress advising the WDNR to seek a legislative ban on all wildlife killing contests?
