(For Hearing Officer completion)

## Ban the use of dogs for hunting wolves

Wisconsin wolves are currently protected under the federal endangered species act; no hunting of wolves is currently allowed. However if wolves are delisted in the future, they will be subjected to hunting. The previous wolf season held in February resulted in the excessive harvest of wolves, which was primarily due to the use of dogs. Dogs must be banned if hunting is allowed, which can be implemented by a change in statutes.

### Would you support banning the use of dogs for hunting wolves if wolves were delisted ?

Additional Information provided by author:

The previous wolf hunting season resulted in the over harvest of the set quota and may have harmed pregnant female wolves that were chased but not killed.
