

Citizen Resolution # 133322

(For Hearing Officer completion)

Restrict Lead Ammunition for Hunting in Wisconsin 2

Nearly half of all bald and golden eagles suffer from chronic lead poisoning, found a recent study that sampled 1200 eagles in 38 U.S. states, including Wisconsin. Avian lead poisoning is strongly linked to ammunition sources – often raptors who eat wild game harvested with lead bullets. Unsafe levels of lead are present in many of our state's game species, impacting the health of our ecosystem and the safety of our food chain. Lead-based ammunition rapidly expands on impact and fragments into hundreds of pieces. These fragments scatter as far as 18 inches from entry point, rendering the practice of trimming around the wound unreliable. Lead fragments are often hard to detect. Wisconsin's Department of Health detailed in a 2008 report the adverse potential for ingestion exposure to lead fragments in donated venison. Lead loyalists cite concerns over price and effectiveness of copper alternatives. Yet there is no major difference in the retail price of equivalent lead-free ammunition for most popular calibers. Modern lead-free ammunition has set benchmark standards for accuracy, lethality, in some cases proving superior in terminal performance and takedown effectiveness. As responsible hunters and stewards of the land, it is our responsibility to reduce lead in the environment to ensure a diverse and viable wildlife population for future generations.

Do you support the WCC working with the DNR, the Natural Resources Board and state legislature to implement limitations on lead ammunition? This would exclude ammunition used in target shooting and could be phased in over time.

Resolutions introduced at each Spring Hearing are public documents under Wisconsin's Open Records law [ss. 19.31-19.39, Wis. Stats.] and will be posted online for the public to review. Any personally identifiable information will be available to the public but will only be used by the Department for administrative purposes.

Please print typed resolution on 8 ½ X 11 white paper (one-sided) and provide the WCC County Chair with TWO COPIES at the spring hearing. Only the individual author or designated representative may present the resolution. The author or designated representative must be present at the time the resolution is introduced. No more than two resolutions may be introduced by any person during the Congress portion of the spring hearings.

Contact one of your [local WCC delegates](#) with questions or for assistance with writing your resolution.
