

Citizen Resolution # 320322

(For Hearing Officer completion)

Ban Coyote Killing Contests

Coyote killing contests promote and reward indiscriminate killing of the species with the use of calls, traps, hounds, and high-tech tools. Seventy-plus (70+) Wisconsin contests, most all targeting coyote, have been identified via tavern fliers and social media; the annual Moondog Madness being the largest. Petitions, billboards, LTEs, and more recently undercover contest footage have raised public awareness and support for ending these events. In response, organizers now operate in secret using private forums, code words, undisclosed weigh-in locations, and virtual video check ins. Cash and prizes, including weapons, award teams killing the most, biggest, smallest, ugliest etc. coyote. A ban on contests would not impact lethal take of coyote for livestock protection, or any form of hunting including fishing derbies and "Big Buck" competitions. The DNR does not monitor/regulate contests and have not released any statement supporting contests. Wanton cruelty and waste, and illegal disposal of carcasses on public land have been reported to and documented by WIDNR (e.g., 5/2018 Morgan Falls area, Ashland County; 4/2019 Old HW 2, Bayfield County; 2/2017 Shiocton). Contest photos of mutilated, bullet-ridden furs indicate many pelts are useless. Increasing support for this resolution shows hunters and non-hunters alike do not endorse indiscriminate killing for fun, prizes, and cash. This divisiveness over contests is evident on social media; many hunters express concern that public support for traditional, ethical, humane, fair chase hunting is at stake. Seven (7) states have banned competition killing, all citing 70 conservation scientists' 2018 findings that indiscriminate killing serves no effective management tool.

Does the WCC support advising the WDNR to develop and seek legislation to ban coyote killing contests?
