

Citizen Resolution # 360522

(For Hearing Officer completion)

SANDHILL CRANE HUNTING SEASON

Damage created by the Sandhill Cranes amounts in the thousands of dollars in damage to crops for Wisconsin farmers. Seasons and quotas for hunting Sandhills can be made to manage the Sandhill cranes, similar to how other species are managed in the state of Wisconsin while minimizing crop damage. Having a sandhill crane season, will allow the state to collect more license fees and could increase sales of hunting equipment which impacts federal money returned to Wisconsin from the Pittman Robertson funds. Several states already have a hunting season across the country including Alaska, Arizona, Alabama, Colorado, Idaho, Kansas, Kentucky, Minnesota, Montana, North Dakota, New Mexico, Oklahoma, South Dakota, Tennessee, Texas, Utah, Wyoming and three Canadian provinces. In some states, the sandhill crane hunt has occurred for over 60 years.

Do you support the creation of a Sandhill Crane hunting season in the state of Wisconsin?

Resolutions introduced at each Spring Hearing are public documents under Wisconsin's Open Records law [ss. 19.31-19.39, Wis. Stats.] and will be posted online for the public to review. Any personally identifiable information will be available to the public but will only be used by the Department for administrative purposes.

Please print typed resolution on 8 ½ X 11 white paper (one-sided) and provide the WCC County Chair with TWO COPIES at the spring hearing. Only the individual author or designated representative may present the resolution. The author or designated representative must be present at the time the resolution is introduced. No more than two resolutions may be introduced by any person during the Congress portion of the spring hearings.

Contact one of your [local WCC delegates](#) with questions or for assistance with writing your resolution.
