Lake Wausau Northern Pike Slot Limit

Lake Wausau has the capability of producing big northern pike. Studies show northern here grow at a fast rate. Northern receiving a lot of fishing pressure, especially ice fishing, and their abundance and size quality seems to have gone down. Adding a slot would still allow harvest of smaller yet quality-sized northern while allowing larger ones to grow protected and provide trophy potential. Studies show they have the capability of growing near 40 inches here. I propose adding a protected slot of 25-35 inches with a daily bag limit of two. This should increase the number of fish over 30 inches and have a good chance at a trophy. This would also align with a current fisheries management toolbox regulation.

Would you agree with adding a protected slot for northern pike on Lake Wausau of 25-35” with a daily bag limit of two?

Resolutions introduced at each Spring Hearing are public documents under Wisconsin's Open Records law [ss. 19.31 -19.39, Wis. Stats.] and will be posted online for the public to review. Any personally identifiable information will be available to the public but will only be used by the Department for administrative purposes.

Please print typed resolution on 8 ½ X 11 white paper (one-sided) and provide the WCC County Chair with TWO COPIES at the spring hearing. Only the individual author or designated representative may present the resolution. The author or designated representative must be present at the time the resolution is introduced. No more than two resolutions may be introduced by any person during the Congress portion of the spring hearings.

Contact one of your local WCC delegates with questions or for assistance with writing your resolution.
