Citizen Resolution # 371122

(For Hearing Officer completion)

**Spirit River Flowage Panfish Bag Limit Reduction to 10**

Spirit River Flowage, located in Lincoln county, has the capability of producing larger panfish. A 25 fish limit is not sustainable due to reduction in abundance and fishing pressure received. Larger flowages are known for producing bigger fish but not as many in number. Angling pressure and advancement in technology have made it time to make this change. Reducing the bag limit would give adult panfish a better chance to reach their full-size potential and should increase catch rates. I propose reducing the daily bag limit to 10 panfish in total. This could help increase size structure and health of the population. This would also align with the current panfish toolbox regulation.

**Would you agree with reducing the panfish daily bag limit to 10 in aggregate on the Spirit River Flowage?**

Resolutions introduced at each Spring Hearing are public documents under Wisconsin's Open Records law [ss. 19.31-19.39, Wis. Stats.] and will be posted online for the public to review. Any personally identifiable information will be available to the public but will only be used by the Department for administrative purposes.

Please print typed resolution on 8 ½ X 11 white paper (one-sided) and provide the WCC County Chair with TWO COPIES at the spring hearing. Only the individual author or designated representative may present the resolution. The author or designated representative must be present at the time the resolution is introduced. No more than two resolutions may be introduced by any person during the Congress portion of the spring hearings.

Contact one of your [local WCC delegates](#) with questions or for assistance with writing your resolution.
