

Citizen Resolution # 410322

(For Hearing Officer completion)

Allow electronic anchoring for Open water duck hunting

Anchoring in Open water can be challenging and dangerous especially with smaller watercraft such as a kayak. Technology has advanced allowing trolling motors enabled with GPS to hold a boat in position without the use of a physical anchor. This may allow kayaks as well as boats a safer option for "anchoring" and Open water. Presently it is illegal to use a trolling motor and be hunting at the same time.

Would you support the use of an trolling motor enabled with a GPS anchoring system IE Spot-Lock technology, to be a legal option for anchoring for the purpose of open water duck hunting?

Resolutions introduced at each Spring Hearing are public documents under Wisconsin's Open Records law [ss. 19.31-19.39, Wis. Stats.] and will be posted online for the public to review. Any personally identifiable information will be available to the public but will only be used by the Department for administrative purposes.

Please print typed resolution on 8 ½ X 11 white paper (one-sided) and provide the WCC County Chair with TWO COPIES at the spring hearing. Only the individual author or designated representative may present the resolution. The author or designated representative must be present at the time the resolution is introduced. No more than two resolutions may be introduced by any person during the Congress portion of the spring hearings.

Contact one of your [local WCC delegates](#) with questions or for assistance with writing your resolution.
