

Citizen Resolution # 430422

(For Hearing Officer completion)

Getting Politics out of Conservation (requires legislation)

Wisconsinites rely on the Department of Natural Resources (DNR), the Natural Resources Board (NRB), State legislature, and the Administration's cooperation to create sound conservation policies for our natural resources. They are the trustees legally responsible to conserve and manage of our fish, wildlife, air, and water resources for current and future generations. Unfortunately, many citizens are concerned that natural resource policy decisions are now negatively influenced by party politics. Changes in legislation that reduce political influence in the governance of the DNR and in policy decisions could offer better conservation and management of our natural resources. For example, the following statutory changes could greatly reduce the influence of political parties within DNR. Restore the DNR Secretary to a merit-based, NRB-appointed position. Restore Governor-appointed positions in the DNR to civil service positions whose selections are merit-based. Clarify that membership on the NRB ends immediately after a member's term expires. Require the legislature to hold confirmation hearings and vote for or against NRB nominees within 90 days of their nomination. Such changes will not be made without strong and persistent support by Wisconsin's citizens, conservation organizations, and businesses. It will take an organized effort to build this support and bring about these changes. This resolution is being offered to get the conversation started.

Do you support having the Conservation Congress work with the public and conservation organizations and businesses to draft legislation that will reduce the political parties influence on the conservation of our natural resources?
