

Citizen Resolution # 451122

(For Hearing Officer completion)

Individual deer harvest quality has declined due to current buck hunting practices.

In my opinion, the quality of individual deer available for harvest has gone down due to the current practice of allowing harvest of bucks with at least one antler of 3 inches in length or longer. This minimal antler length does not provide for bucks to reach their full size/maturity potential before being harvested. It would be better to have a more restrictive antler size requirement.

Would you support the WCC and DNR working with the state legislature to change the current definition of a legal buck to having at least 4 points on one side?

Resolutions introduced at each Spring Hearing are public documents under Wisconsin's Open Records law [ss. 19.31-19.39, Wis. Stats.] and will be posted online for the public to review. Any personally identifiable information will be available to the public but will only be used by the Department for administrative purposes.

Please print typed resolution on 8 ½ X 11 white paper (one-sided) and provide the WCC County Chair with TWO COPIES at the spring hearing. Only the individual author or designated representative may present the resolution. The author or designated representative must be present at the time the resolution is introduced. No more than two resolutions may be introduced by any person during the Congress portion of the spring hearings.

Contact one of your [local WCC delegates](#) with questions or for assistance with writing your resolution.
