

Citizen Resolution # 520222

(For Hearing Officer completion)

Allow Use of Cellular Trail Cameras for Trap Checks

Currently, Wisconsin requires a dry land trap to be checked every 24 hours. If someone who lives in the southern half of the state wants to target a fisher or bobcat, they travel north. A 24 hour trap check becomes nearly impossible. Technology has advanced and trappers should be able to use tools available to make clean and ethical sets. Trappers would be instantly notified if they have made a catch, any time of the day.

Would you support the use of Cellular Trail Cameras to satisfy trap check requirements?

Resolutions introduced at each Spring Hearing are public documents under Wisconsin's Open Records law [ss. 19.31-19.39, Wis. Stats.] and will be posted online for the public to review. Any personally identifiable information will be available to the public but will only be used by the Department for administrative purposes.

Please print typed resolution on 8 ½ X 11 white paper (one-sided) and provide the WCC County Chair with TWO COPIES at the spring hearing. Only the individual author or designated representative may present the resolution. The author or designated representative must be present at the time the resolution is introduced. No more than two resolutions may be introduced by any person during the Congress portion of the spring hearings.

Contact one of your [local WCC delegates](#) with questions or for assistance with writing your resolution.
