Citizen Resolution # 682122

Simplifying the permit system for holding a field trial on state owned grounds.

Reduce the number of permits required to hold a field trial on State-owned land. At present, in order for an individual or dog organization to hold a field trial on State owned land or training grounds, they must purchase two permits. One is for the trial itself and the other is a "Special Use Permit." Historically, these grounds and grounds with a Class 1 designation are for dog training and horseback field trials. The ability for dog enthusiasts to hold a field trial or test on State owned land is important to the sporting dog community. These events are opportunities for dog owner, trainer, to test their dogs skills. Dog training is important to ensure that game is found and recovered efficiently while afield. The current system requires the purchase of two separate permits to hold a field trial and are a financial burden on dog clubs. It's also more complicated and time consuming to file two applications for the same activity. field.

Would you support the WCC, WI DNR, and Legislators working together to simplify the permit system so only one affordable permit is required to hold a dog event, Field Trial, on State - owned lands?
