Department of Natural Resources  
Bureau of Law Enforcement  
Special Investigative Warden

POSITION SUMMARY

This position is a Bureau of Law Enforcement position responsible for conducting and coordinating investigations of complex civil and criminal violations of environmental and resource management laws; including responsibility for initiating and assisting in the development of environmental law and resource management investigations that are presented by other department staff. The position works closely with central office staff, regional law enforcement staff, environmental staff, resource management staff, and Conservation Wardens.

As a case manager the investigator, directs and conducts investigations, evaluates evidence and, when appropriate, recommends referrals to the Wisconsin Attorney General's office, the United States Attorney's office or various District Attorneys' offices for prosecution. This position's responsibilities also include information analysis and problem identification/solving. The position assists in the investigative training for Conservation Wardens, Environmental Enforcement and other Wisconsin Department of Natural Resources (WDNR) personnel. The position coordinates training between the environmental, resource management and law enforcement staff to further the understanding of the various functional responsibilities. Although, this position primarily conducts environmental and resource management investigations in the assigned area of responsibility, the investigator also responds to other regions of the state to conduct (or assist) in investigations requiring the specialized expertise and skills of this position. The Investigator is the lead position in forming teams of departmental personnel who will investigate specific environmental and/or resource management violations.
