

Notice: Sources within a Maximum Achievable Control Technology (MACT) source category or subcategory under s. 112(e) of the federal Clean Air Act, for which the US EPA Administrator has failed to promulgate emission standards by the section 112(j) deadlines are required under 42 USC 7412(j)(3), ss. 285.61 and 285.67, Wis. Stats., 40 CFR 63.52 and 63.53, and s. NR 407.09(1)(f)5., Wis. Adm. Code, to provide the information described on this form. Applicants who fail to submit the required information may be subject to penalties of not less than \$10 or more than \$25,000 for each day of continued violation. Personally identifiable information collected is not intended to be used for any other purpose but may be provided to requesters as required by Wisconsin's Open Records law [ss. 19.31-19.39, Wis. Stats.].

Instructions: The applicant shall file copies of completed forms, on paper or in electronic format, as follows:

- Two (2) copies of all forms and other required application materials submitted on paper, OR
- One (1) copy of all forms and other required application materials in an electronic format and two (2) copies of the signed form submitted on paper.

Submit to: Wisconsin Department of Natural Resources
Bureau of Air Management
PO Box 7921
Madison WI 53707-7921
Attention: Operation Permits

Sources of Hazardous Pollutants Information

This section applies to **major** sources of hazardous air pollutant (HAP) emissions. If your source is not major, you are not subject to this application requirement. Your source is major if all equipment, activities, or both within a single contiguous property and under common control emits or has the potential to emit:

- at least 10 tons per year of any federal HAP or
- at least 25 tons per year of any combination of federal HAPs.

Source is **not major** for HAPs — Proceed to the certification section of this application.

Source is **major** for HAPs — Complete entire application.

Provide a brief description of the facility (attach additional sheet if necessary)

Identify any sources that have MACT determination under section 112(g)

If you own or operate an affected source in a major source category for which EPA has not promulgated standards under 40 CFR 63, list those source categories. Source categories are listed under several links at <http://www.epa.gov/ttn/atw/eparules.html>.

List all affected source(s) and the relevant source category for each source.

Air Pollution Control Permit Application**

Form 4530-155 (R 12/08)

Page 4 of 4

For each affected source or emission unit in each relevant source category for which MACT standards have not been promulgated, complete the following table. Copy, complete and attach additional pages of this table, if necessary, for each source.

Brief description of affected source including unit ID (e.g., B10, P05) and capacity.

MACT Source Category:

Emission points	Recommended emission limitation	Control technology to be applied	Recommended operating limits or work practice standards	Recommended monitoring requirements including parameter and frequency

Briefly explain the rationale for the above recommendations.
