

Planning your trip

Camping is permitted only in designated areas (Shelters 1, 2, 3 and the Lapham Peak campsite). There is a 1-night, 10-person maximum at each shelter/campsite. Reservations can be made at wiparks.net or by calling (888) 947-2757. A reservation fee is charged in addition to the camping fee.

In the Southern Unit, shelters are provided for backpackers using the Ice Age Trail. Three reservable, overnight, backpacking shelters are available year-round within the Southern Unit. Each shelter is an Adirondack style lean-to with an earth floor, having an open doorway and open windows. The shelter areas include a vault toilet, fire pit, picnic table, and additional tenting space. All tents must be set up within 100 feet of the shelter.

In the Lapham Peak Unit, a reservable campsite is available for tent camping along the trail. This site also has a vault toilet and a fire pit.

Shelters that have not been reserved in advance will be assigned on a first-come, first-served basis during office hours. **You must obtain a camping permit before occupying the campsite.**

All backpackers must stay in an established campground; no back-country camping is allowed. If all the IAT shelters are reserved, consider other options:

- The Eagle Home Hostel is located next to the Forest Headquarters. If Shelter #2 is full, call Bill Livick at 262-495-8794. It is open Friday and Saturday nights and nightly rates vary by room.
- In the Southern Unit, hikers can camp at Whitewater Lake (south end) or

Pinewoods (north end) and still hike the IAT easily. Try setting up your trip based out of one of these campgrounds. *Note: Ottawa Lake is not located on the Ice Age Trail.* Reservations can be made online at wiparks.net or by calling (888) 947-2757.

- Campers on foot or bike will be allowed to camp in a designated overflow area in one of the campgrounds if the campground is full. There will be no picnic table or fire pit provided. This option is only available when the campgrounds are open for the season (mid-May through mid-October).

In all areas of the Kettle Moraine State Forest, refuse must be packed out from the site. Garbage/recycling containers are not available.

Be aware that trails vary in difficulty and may have steep climbs and descents. The trail surface can become slippery when wet, leaf-covered or where loose gravel and acorns are encountered.

Pets are permitted on the Ice Age Trail and at the campsites. Pets must be leashed and under control at all times.

Vehicles may be parked in parking lots or anywhere the Ice Age Trail crosses the road, as long as the vehicle is not blocking the trail and is out of traffic and off the pavement. A Wisconsin State Park vehicle admission sticker is required for parking areas in the State Forest. Illegally parked vehicles may be ticketed and towed.

Hunting is permitted in the Southern Unit of the Kettle Moraine State Forest. During these seasons, it is recommended that all forest users wear blaze orange. Contact the Southern Unit office for current seasons and dates. Hunting is not permitted in the Lapham Peak Unit.

Emergency

There are no pay phones located near the trail. Cell phone service is not always reliable. Dial 911

What is the Ice Age Trail?

The Ice Age National Scenic Trail (IAT) is a 1,200-mile-long trail located entirely within Wisconsin. More than 600 miles of trail are complete. The completed sections of the trail are connected by less-traveled roadways and other temporary routes.

The trail began in the 1950s as the vision of Milwaukee native Ray Zilmer, who had the idea of a trail winding for hundreds of miles along the terminal moraine of the most recent continental glaciation. The trail started to become a reality with the establishment of the Ice Age National Scientific Reserve in 1964.

Today, the route of the trail follows the terminus of Wisconsin's most recent glacier. It occasionally diverges to include other features of the glacial landscape as well as parts of the unglaciated areas of the state. There are a variety of glacial landforms that are identifiable in the Wisconsin landscape. Features such as moraines, eskers, erratics, kettles, drumlins, dells and kames can be seen along the trail.

The trail is administered by the National Park Service in cooperation with the Wisconsin Department of Natural Resources and the Ice Age Trail Alliance (IATA) as well as many other federal, county and municipal departments, civic entities and private landowners.

For more information about a specific segment of trail, visit the IATA website at iceagetrail.org. The Alliance publishes an atlas of IAT maps and a Companion Guide providing a wealth of information for both day and thru-hikers alike. Local IATA chapters can be contacted for more local information.

Additional information can be found on the National Park Service website at nps.gov.

The Wisconsin Department of Natural Resources provides equal opportunity in its employment programs, services, and functions under an Affirmative Action Plan. If you have any questions please write to Equal Opportunity Office, Department of Interior, Washington, D.C. 20240.

This publication is available in alternative format (large print, Braille, audio tape etc.) upon request. Please call (608) 266-2181 for more information.

Drinking Water	
Drinking Water Site	Location
Pinewoods Group Camp*	Near vault toilets
DJ Mackie Picnic Area*	South of building along tree line
Scuppernong Hiking Trails*	Near bathroom
Hwy 67 Ice Age Lot	Hand pump behind fence
Forest Headquarters*	Access trail near parking lot
Emma Carlin Bike Trails*	Near bathroom building (take spur trail to parking lot)
John Muir Bike Trails*	Near bathrooms (not directly on IAT)
Whitewater Lake Contact Station	On outside of building, right of door
Lapham Peak	Tower or Evergreen picnic areas
* Year-round water source	

Trail Shelter Parking Lots		
Nearest shelter	Parking site	Location
#1	Pinewoods Campground	Overflow parking at entrance to loop
#1	Scuppernong Hiking Trails	Hwy ZZ, east of Hwy 67
#1	Hwy 67 Ice Age Lot	Hwy 67, near Road X intersection
#1 & #2	Hunter Parking Lot	Near intersection of Hwy N and Wilton Rd
#2	Forest Headquarters	Hwy 59, 3 miles west of Eagle
#2 & #3	Emma Carlin Bike Trails	Hwy X, 1 mile south of Hwy 59
#3	Ice Age Parking Lot	Hwy 12, east of intersection with Sweno Rd
#3	Whitewater Lake Contact Station	Kettle Moraine Drive, west of Hwy P
Lapham Peak	Evergreen or Tower Parking Lots	Lapham Peak Unit - Hwy C, 1 mile south of I-94.
Parking is allowed in other parking lots within the Forest. Please let staff know where you intend to park overnight when you check in.
