

# 2017 Pheasant Stocking Information

A 2017 Pheasant Stamp is required to hunt pheasants in Wisconsin. See the [2017 Small Game Hunting Regulations](#) for season dates and bag limits.

The Wisconsin DNR plans to stock 91 properties with approximately 76,000 pheasants from the state game farm for the 2017 pheasant season.

The [Fields & Forest Lands Interactive Gamebird Hunting Tool](#) is an online map showing properties stocked with pheasants, managed dove fields and suitable cover for ruffed grouse and woodcock. Learn more by visiting [dnr.wi.gov](#) and searching keyword "[FFLIGHT](#)."

**2:00 p.m. Closure Areas** are properties where pheasant hunting hours close at 2pm on weekdays Oct. 16—Nov. 3. The remainder of the season and all other properties follow regular small game hunting hours listed in the small game regulations.

**Hen/Rooster Areas** are properties where the harvest of both roosters and hens is allowed. See the [2017 Small Game Hunting Regulations](#) for more information. All other properties only allow for the harvest of roosters.

**The Day-old Chick (DOC) Program** allows conservation clubs to raise and release pheasants on private land open to public hunting or on approved state-owned lands. Hunters are reminded to be polite and notify landowners before hunting on open private property as part of the DOC program. Visit [dnr.wi.gov](#) and search keyword "[Game Farm](#)" for more information on the DOC program.

Depending on production levels at the state game farm, pheasants are released once prior to the pheasant hunting season and then twice a week for the first two to three weeks of the season. After that, birds are released about once per week until the 9-day gun deer season. Most properties are only stocked once or twice more during December. The number of birds released depends on property size and weather conditions.
