**Development at Historic Fill Site or Licensed Landfill
Expedited Exemption Application**
Form 4400-226A (R 05/21)

Notice: This form and Form 4400-226 are required to apply for an expedited exemption to develop at a historic fill site or licensed landfill pursuant to ss. NR 506.085 and NR 500.08(4), Wis. Adm. Code. This form may only be used for landfill sites with no environmental impact. The Department will not consider your application unless you provide complete information requested. Personally identifiable information collected will be used to process your application and will also be accessible by request under Wisconsin's Public Records law [ss.19.31 - 19.39, Wis. Stats.]

Environmental Professional Evaluation

I am a professional engineer or professional geologist or hydrologist registered to practice in Wisconsin and am qualified by training and experience to evaluate the potential for soil and groundwater contamination and the migration and concentration of explosive or toxic gases to occur from the disposal of solid waste.

I have evaluated the proposal described in this document for development on a property where solid waste has been disposed and it is my professional opinion that it is unlikely that "environmental pollution" exists or that there has been a significant "discharge" of a "hazardous substance" at the property (as these terms are defined in s. 292.01, Wis. Stats.). It is also my professional opinion that the development of the property as described in this document will not cause or exacerbate an exceedance of any applicable soil or groundwater standard and will not cause a significant increase in risk due to the migration or concentration of explosive or toxic gasses or cause any other significant risk to public health, safety or welfare or the environment.

My professional opinion is given to a reasonable degree of professional certainty, and is based upon my evaluation of reasonable and sufficient information and generally accepted engineering and scientific practices.

I certify that I have read the DNR publication, *Development at Historic Fill Sites and Licensed Landfills: Considerations and Potential Problems* (PUB-RR-685), and understand the potential environmental, health and safety risks if the development of the property is not compatible with the waste disposed at the site.

I also understand that future decisions regarding the use of the property must consider whether those changes will create an adverse environmental impact and that activities causing a significant threat to public health, safety, or welfare are prohibited under s. 289.46(2), Wis. Stats. This exemption application and any exemption related to this document that is issued by the Department transfers to any future purchaser of this property.
