

Natural Body of Water Use Permit Requirement Review Application

Notice: Pursuant to ch. 29.733, Wis. Stat., the Department of Natural Resources (DNR) requests this form to be completed so determination can be made as to whether your waterbody(s) is exempt from the permit requirement. This is not a permit application.

Please return this completed form and attachments to the address in the upper left corner of this form.

Project Description

A "natural body of water" is defined in Wisconsin law as any spring, stream, pond, lake or wetland that was historically present in a natural state but may have been physically altered over time. A "freeze-out pond" is defined in Wisconsin law as a natural, self-contained body of water in which freezing or anoxic conditions prevent the body of water from a naturally sustaining a fish population at least twice every 5 years.

Attachments (Provide all of the following)

1. Location sketch or map showing route to the project site, indicating nearest main road and crossroad, north arrow and scale.
2. Diagram, map, or aerial photo showing number and dimension of all ponds, raceways, tanks or other waterbodies to be used for fish farming.
3. Photocopy of any other permits or authorizations required by Ch. 30 or 31, Wis. Stats., the Army Corps of Engineers and any other federal, state or local laws and zoning ordinances for construction or operation of the fish farm. (Note: Permits issued under Ch. 30.19, 30.195, or 31.04 may mean your waterbody is exempt from a permit requirement.)

Application Certification

The information provided above is true and correct to the best of my knowledge.
