Three Steps to Report Your Water Use Online

1. Create and Activate a Wisconsin Access Management System (WAMS) ID

2. Connect your water withdrawal information to your WAMS ID

3. Report Your Withdrawals

Step 1 - Create and Activate a Wisconsin Access Management System (WAMS) ID

Account security and identity validation for online reporting is handled by the WI Dept. of Administration. They administer the Wisconsin Access Management System (WAMS) so that users can create one ID and password that works for multiple tasks across different State of Wisconsin agencies.

If you already have a WAMS ID, you can skip ahead to Step 2.

Step 1 - Create and Activate a Wisconsin Access Management System (WAMS) ID (cont'd)

Click Create.

Reporting water use

The annual deadline for reporting is March 1.

Option 1: Report online

Identity verification and authorization to report online is done through the Wisconsin Access Management System (WAMS) administrated by the Department of Administration.

Those who have an active WAMS identification (ID) can log in and report water use.

[Log in](#)

to submit water use reporting.

To create a WAMS ID, follow the self-registration and activation process. After you have a WAMS ID, you will be able to log in to the water use reporting system.

[Create](#)

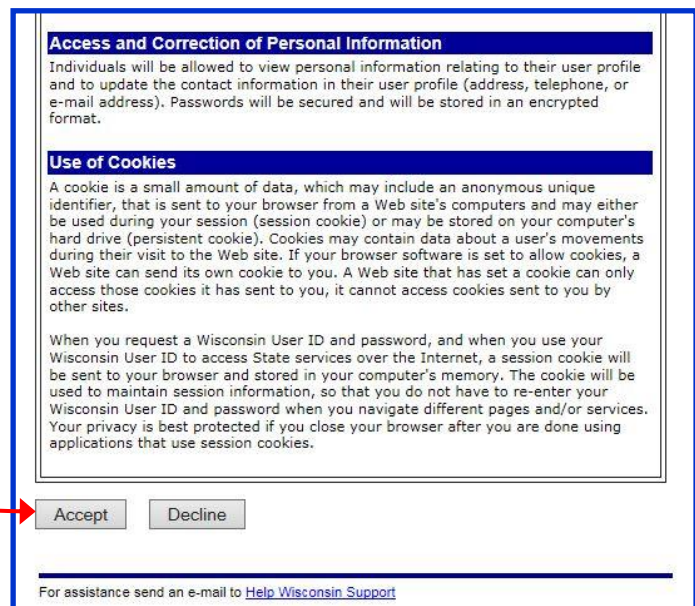

and activate a WAMS ID.

Once you are at the WAMS site, review the terms of use and other information on the introduction page.

The screenshot shows the top of the Wisconsin Self-Registration page. It features the Wisconsin state logo on the left and the text "State of W I S C O N S I N" in a large, spaced-out font. Below this, there are links for "Logout", "Help", and "FAQ". The main heading is "Self-Registration" with a blue underline. The text below reads: "Welcome to the State of Wisconsin's self-registration process. Self-Registration allows you to create your personal Wisconsin Login Account. This is your key to doing secure business with the State of Wisconsin over the Internet." Below this is a section titled "OVERVIEW" which states: "The self-registration process consists of two parts:" followed by an "Important:" note: "We highly recommend that you complete Parts One and Two at the same time. You must complete Part Two within four (4) days of requesting the account or you will have to begin the self-registration process again."

Scroll down and click "Accept" to begin creating your WAMS ID.

The screenshot shows a scrollable area containing two sections: "Access and Correction of Personal Information" and "Use of Cookies". The "Access and Correction of Personal Information" section states: "Individuals will be allowed to view personal information relating to their user profile and to update the contact information in their user profile (address, telephone, or e-mail address). Passwords will be secured and will be stored in an encrypted format." The "Use of Cookies" section explains: "A cookie is a small amount of data, which may include an anonymous unique identifier, that is sent to your browser from a Web site's computers and may either be used during your session (session cookie) or may be stored on your computer's hard drive (persistent cookie). Cookies may contain data about a user's movements during their visit to the Web site. If your browser software is set to allow cookies, a Web site can send its own cookie to you. A Web site that has set a cookie can only access those cookies it has sent to you, it cannot access cookies sent to you by other sites." Below this text is a paragraph: "When you request a Wisconsin User ID and password, and when you use your Wisconsin User ID to access State services over the Internet, a session cookie will be sent to your browser and stored in your computer's memory. The cookie will be used to maintain session information, so that you do not have to re-enter your Wisconsin User ID and password when you navigate different pages and/or services. Your privacy is best protected if you close your browser after you are done using applications that use session cookies." At the bottom of the scrollable area are two buttons: "Accept" and "Decline". Below the scrollable area, there is a footer: "For assistance send an e-mail to [Help Wisconsin Support](#)".

Step 1 - Create and Activate a Wisconsin Access Management System (WAMS) ID (cont'd)

On the WAMS self-registration page, you are required to enter your name, email and phone number. Do not enter address information!

Choose a unique user ID you will easily remember.

Choose a password that is at least 7 characters long and contains at least one letter and one number.

Choose a question that only you know the answer to. This is used to verify your identity in case you forget your password.

Once complete, click "Submit". You will be asked to verify your email address. **Carefully check that you typed your email address correctly** (if you make any errors on the registration form, you will be prompted to correct them at this point).

The screenshot shows the 'Self-Registration' page for the State of Wisconsin. The page header includes the Wisconsin logo and the text 'State of W I S C O N S I N'. There are links for 'Logout', 'Help', and 'FAQ'. The main heading is 'Self-Registration' with a note '* Indicates Required Field'. The form is divided into three main sections: 'Profile Information', 'Account Information', and 'Account Recovery'. The 'Profile Information' section includes fields for First Name, Middle Initial, Last Name, Suffix (with a dropdown menu), E-Mail, and Phone #. Below these are sections for 'Home Residence Address' and 'Home Mailing Address', each with fields for Street, Unit Number, City, State (dropdown), and Zip Code. A checkbox is present for 'Mailing Address is the same as Residence Address'. The 'Account Information' section includes fields for User ID, Password, and Re-enter Password, with instructions on character requirements. The 'Account Recovery' section includes fields for Secret Question and Answer to Secret Question, with a link to 'Click here for Guidelines'. A 'Submit' button is located at the bottom of the form. A red arrow points from the text 'You will be asked to verify your email address' to the 'E-Mail' field.

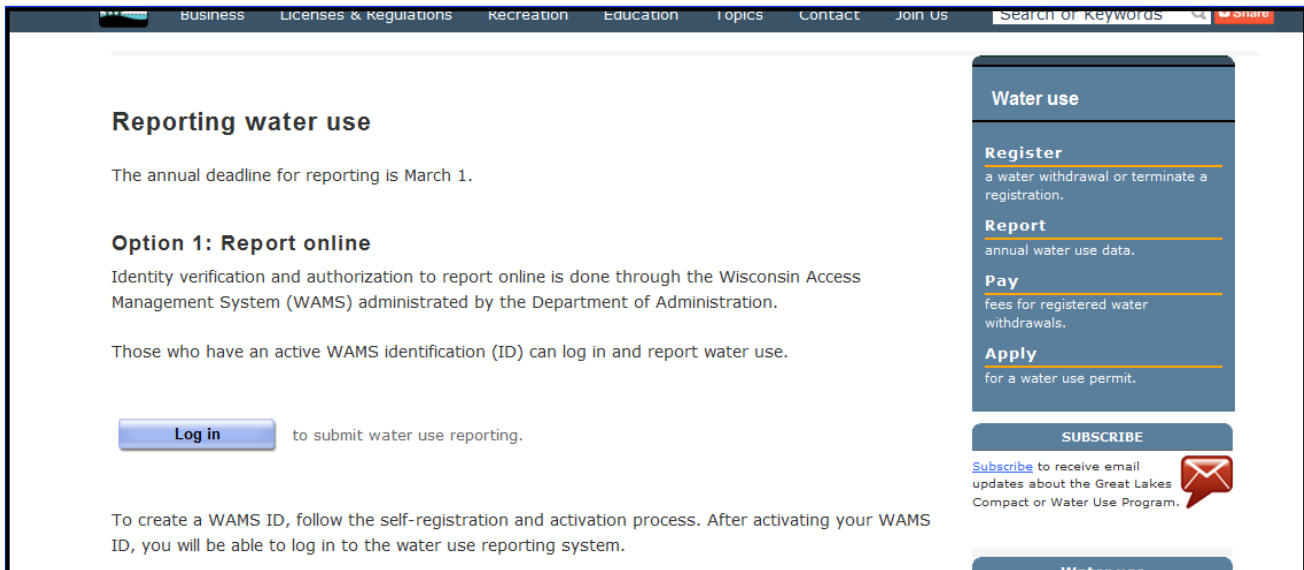

After you have submitted your registration, you will receive an email at the address you provided. The message will contain an internet link to activate your account. Click the link and enter the user name and password you created. After logging in, the screen will show that you successfully created and activated your WAMS account. You are ready to begin reporting.

The screenshot shows the 'Self-Registration' confirmation page for the State of Wisconsin. The page header includes the Wisconsin logo and the text 'State of W I S C O N S I N'. There are links for 'Logout', 'Help', and 'FAQ'. The main heading is 'Self-Registration'. Below the heading is a message: 'Hi email', 'Congratulations! You have successfully created and activated your Wisconsin Login Account. You are now enabled to access any secured State of Wisconsin Web application to which you are granted rights.', 'Please remember to delete the "State of Wisconsin Self-Registration" e-mail message.', 'For your protection, you should close your browser window at the end of each session.', 'Clicking on the link below will take you to Profile Management to review your account.', and a link for 'Profile Management'. At the bottom, there is a footer note: 'For assistance send an e-mail to help@wisconsin.gov'.

Step 2 - Connect your water withdrawal information to your WAMS ID

Now that you have a WAMS ID, the next step is for DNR to identify you by your WAMS User ID. This is a one-time step that points your WAMS ID to the correct contact in DNR records. It only needs to be done the first time you log on. If you have already connected your account you will be taken directly to the reporting property page.

To begin, go to the page you bookmarked in Step 1 or click this link to return to the [Water Use Online Reporting](#) website. Click “Log in”.

The screenshot shows the 'Reporting water use' page on the Wisconsin Department of Natural Resources website. The page includes a navigation bar with links for Business, Licenses & Regulations, Recreation, Education, Topics, Contact, and Join Us. The main content area features the heading 'Reporting water use' and a sub-heading 'Option 1: Report online'. A 'Log in' button is prominently displayed. A sidebar on the right contains a 'Water use' menu with options to Register, Report, Pay, and Apply. A 'SUBSCRIBE' button is also visible in the sidebar.

After successfully logging in with your WAMS ID and password, you will be directed to our introduction page for water use reporting. Click “Begin Reporting” after reading the information on the page.

You will be asked for your owner or operator number. This number is located on the postcard notifications and letters regarding reporting that the DNR has sent you. If you do not know this number, please contact water use program staff. If you know your owner or operator number click “Yes”. Be sure to use the number that is associated with you if the owner and operator of the property are different.

Wisconsin Department of Natural Resources

Drinking & Ground Water Use Information System

Connect to Your Account

You will need your Owner/Operator # to proceed. This number is located on Water Withdrawal Reports and other correspondence from the Water Use Section.

Do you know your Owner/Operator number?

Step 2 - Connect your water withdrawal information to your WAMS ID (Cont'd)

After entering your owner or operator number, you will be asked to verify your information. If it is incorrect, click "Retry" or call water use staff for help. If it is correct, click "Connect". Your WAMS User ID will now be associated with your owner or operator information.

If this is not you, click Retry or Logout

Continue to Step 3 – Reporting Your Withdrawals

Step 3 - Report your withdrawals

Once you have connected your WAMS ID with your owner or operator number, you will be routed to the reporting information. All of the properties that you are associated with as an owner OR operator of at least one source will appear as a row in the table. This page also indicates whether or not reports have been completed for all sources on the property.

By clicking "View History", you can see the prior year reporting for the sources on that property.

If the operator listed is incorrect, use the **Contact Us** link on the upper-right blue bar to email us with the correct information.

If a property you own or operate is not listed, please contact water use program staff for assistance at (608)266-2299 or use the **Contact Us** link on the screen.

Wisconsin Department of Natural Resources								
Drinking & Ground Water Use Information System								
Property								
Property No	Property Name	County	Owner No	Owner Name	Operator Name	Property Status	2014 Reporting Status	Action
6907		Door	99999	A-1 COMPANY - CLEAR, CRYSTAL	A-1 COMPANY - CLEAR, CRYSTAL		Incomplete	Submit Report View History
7064		Waushara	99999	A-1 COMPANY - CLEAR, CRYSTAL	- DOE, JOHN		Incomplete	Submit Report View History
10103	north irr well	Polk	99999	A-1 COMPANY - CLEAR, CRYSTAL	DAIRY FARMS INC - SWISS, BROWN		Incomplete	Submit Report View History

To report water use for sources, click "Submit Report" for that property.

Helpful Tips:

- You will see each of the sources on the property along with identifying information about each source. You can change or insert information in the yellow boxes. You must list an email address for yourself, whether the owner or operator (or both) if you report online.
- If your information appears multiple times, you only need to change one location for the information to update! Updates won't show up until you save and return to the page.
- Information in blue boxes is mandatory for the reporting to be complete. Depending on how you answer whether you withdrew water, the blue boxes will change. If you don't have all of the information to complete reporting on a source, list it as incomplete and you can return later to finish the reporting.
- Uncheck the boxes above the reporting information for any sources that someone else will report. You will not be allowed to leave a source blank and submit reporting *unless* you uncheck the box for the source.

Step 3 - Report your withdrawals (Cont'd)

Enter the total gallons of water withdrawn for each month that you made a withdrawal.

You can make comments about reporting for yourself or DNR in the comment box. If you would like information changed that you aren't able to change on the screen, DO NOT use the comments box! Use the Contact Us link in the upper-right corner of the blue bar to send us an email with your information.

When you are finished with your reporting, click "Save". You will return to the list of properties to report water use for another property or exit the system by clicking "Sign Out" in the upper-right corner in the blue bar. Email confirmation will be sent to each email address listed for the owner and any operators listed for the property when reporting is complete.

If you still have questions, concerns or comments regarding water withdrawal reporting or the online reporting system, please contact the Water Use program staff at (608) 266-2299 or email us at [DNR Water Use Program](#).
