

## PFAS Contamination in the Marinette Peshtigo Area

# Listening Session 1

September 18, 2019

## Welcome and Agenda

- 1) What is a listening session – what to expect from this meeting and future meetings
- 2) Upcoming Listening Session schedule
- 3) Brief intro - PFAS Contamination in Marinette + Peshtigo area
- 4) Updates since last Public Meeting held July 10<sup>th</sup>, 2019
- 5) Foam Sampling, Surface Water Sampling, Floodwaters in homes
- 6) Listening Session

## What is a Listening Session?

- Commitment made by DNR to provide a monthly, in-person forum for area residents to meet with DNR and DHS staff.
- Your opportunity to ask questions and discuss concerns about PFAS investigation in Marinette and Peshtigo
- Note cards and open forum

## What is a Listening Session?

- Committed to open and ongoing communication – ask questions, give feedback, let us know what topics you want to hear about:
  - Call (888-626-3244) or
  - email [DNRJCIFAS@wisconsin.gov](mailto:DNRJCIFAS@wisconsin.gov)
- Also – check out our FAQs and latest investigation information
  - <https://dnr.wi.gov/topic/Contaminants/Marinette.html>

**WISCONSIN DNR** Department of Natural Resources **Listening Session Schedule**

- Developing agenda items

Listening Session	Date	Time(s)	Topics 
Listening Session 1	Wednesday, September 18, 2019	6-7:30 p.m.	Foam/water Sampling
Listening Session 2	Wednesday, October 16, 2019	6-7:30 p.m.	Deer
Listening Session 3	Wednesday, November 20, 2019	noon-1:30 p.m. and 6-7:30 p.m.	Air Dispersion
Listening Session 4	Wednesday, December 18, 2019	6-7:30 p.m.	TBD
Listening Session 5	Wednesday, January 15, 2020	noon-1:30 p.m. and 6-7:30 p.m.	
Listening Session 6	Wednesday, February 19, 2020	6-7:30 p.m.	

- Public Meeting – Long Term Potable Water Solutions
  - Holding off on scheduling this meeting so DNR can review analysis of options. This way, we are able to provide clear and complete information to the public.
  - DNR is not hosting a meeting at River County Club on Oct 3, 2019

**WISCONSIN DNR** Department of Natural Resources **PFAS in Marinette and Peshtigo**

## Project Updates

- Site Investigation Field Work
- Responsible Party Letters
- Information Request Letters
  - Signs
  - 3100 Woleski Road, Marinette
  - 150 Pine Street, Peshtigo
  - FTC/Stanton Street
  - City of Marinette Biosolids

## Foam + Surface Water Concerns

- Foam on Peshtigo River
  - Reported downstream of Peshtigo dam spillway + other locations
- Hired contractor to sample foam when reported
  - *contractor mobilized this week*
  - Results in approx. 1-month
- Responded to event in residential home

Foam on Peshtigo River

## Foam + Surface Water Concerns

- Worked closely with DHS to understand potential health effects from exposure to PFAS via foam, surface water, or flood waters in residences – **DHS issued letters describing risk and how to reduce exposure:**
  - PFAS exposure surface water and foam: [DHS Letter](#)
  - PFAS exposure flood waters in residence: [DHS Letter](#)

\*Letters are available on the website under the 'Health' tab

## Foam + Surface Water Concerns

- **DHS Message:**
  - Overall low source of exposure
  - Accidental swallowing (ingestion) is the main source of exposure
  - Touching (dermal) is a minor source of PFAS exposure

## Foam Sampling:

### How to Report a Foam Event

888-626-3244 or [DNRJCIPFAS@Wisconsin.gov](mailto:DNRJCIPFAS@Wisconsin.gov)

- Where exactly the foam is located
- When was the foam first observed, and is it still present?
- Characteristics of foam (i.e. color, contiguous mass or numerous clumps, floating on surface or accumulating along shore, etc.)
- e-mail pictures
- More information at <https://dnr.wi.gov/topic/Contaminants/Marinette.html>

**PFAS contaminated foam:**

- bright white coloring

**Naturally occurring foam:**

- off-white and/or brown

## Dept SW Sampling Initiative

Monitoring: A single water chemistry sample at three locations on the Peshtigo River

- 1) Peshtigo River above Peshtigo Flowage (Station 1019667)
- 2) Peshtigo River below Peshtigo Flowage (near Station 10050864)
- 3) Peshtigo River below Peshtigo POTW (near Station 383039)

## POTW Screening Initiative

- Recipients were chosen based on a number of factors
- 125 POTWs
  - 27 Authorized Pretreatment Programs
  - 87 Other POTWs with SIUs
  - 10 found by query of permit fact sheets
  - 1 community with PFAS in water supply

- Letter sent to the facilities:
  - background explanation
  - series of requested actions

The intended outcome of the letter is to scope the extent of the PFAS problem in Wisconsin and take source reductions measures.

Source: Michigan EGLE, "Michigan's IPP PFAS Initiative" (May 2019)

The program has developed an interim strategy for dewatering projects.

**BRTS on the Web**  
The Bureau for Remediation and Redevelopment Tracking System (BRTS) on the Web is a searchable database containing information on the investigation and cleanup of potential and confirmed contamination to soil and groundwater in the state of Wisconsin.
