Comments:

Once again, the DNR has presented a DEIS based on incomplete information, and therefore has again failed at their mission to protect & enhance our natural resources. Without complete information, it is impossible to make a ^{valid} determination as to the impacts the proposed Kohler Golf course will have. Certainly, there is no doubt as to the devastation that would be caused to the wetlands, the forest, the flora & fauna, the rare invertebrates, the sand dunes & so on. The one thing the DNR was conclusive about was the drawdown of surrounding wells by at least 7 ft. I live (for 18 years now) within 2 miles of the proposed project, & I have a well. I love my well water, and selfishly, this

— OVER —

is my greatest concern, not to diminish the other ²
concerns.

I agree that Kohler should be able to do what he wants on his property, within the law, not within his pocketbook, just like I have to do on my mere 20 acres (which also has a creek and wetland). Kohler could do great things with that property, to the benefit of all living kind, He could do the right thing, and leave a lasting legacy for nature & humankind.

Stacey Rajchel-Bahr

Comments:

The DNR no longer stands for the
environment or any natural resources.

The DNR now functions for
the highest bidder. You have sold us
out.

Shame on you!

Have the guts to do what
is right —

Comments:

I am For the project. I have been on the other Kohler
golf courses and projects and have seen the beautiful sites
that have resulted. They will do it right!!

Comments:

LOOKS LIKE DNR HAS DONE THOROUGH JOB.
THANK YOU DNR. I LIVE ON SHEBOYGAN'S
NORTH SIDE, WHISTUNG STRAITS PRO ADDED
A GREAT DEAL OF VALUE TO THE AREA AND
APPEARS TO RESPECT THE LOCAL ECOLOGY.
