Dear Wisconsin’s Forestry Community,

In September you were invited to review a draft of the assessment portion of Wisconsin’s 2020 Forest Action Plan and submit your thoughts and suggestions for the document. Thank you for your feedback during this review period. We are processing the comments we received and will be incorporating your ideas into the assessment. We will provide another opportunity to review in the spring when we have also incorporated the strategies and goals. The purpose of the Forest Action Plan is to provide long-term, comprehensive, coordinated strategies to help the forestry community refine how it collectively invests state, federal and leveraged partner resources to address major management and landscape priorities. The Forest Action Plan should be useful for all interested parties, so we value your input into this document. Thank you!

You can find more information on the 2020 Forest Action Plan, and what has been done so far by visiting [dnr.wi.gov](http://dnr.wi.gov) keyword "Forest Action Plan."

**Next Steps for the 2020 Forest Action Plan**

Now that we have a good idea of the status of our state’s forest land through the assessment, we are turning our attention to the next phase of the plan development: identifying strategies for addressing the conditions and trends identified in the assessment phase. We have begun discussions with partners across the state to gather ideas for these strategies.

If you are not already involved through an Operational Partner Group, and would like to be more engaged in this process, please let us know by providing us your contact information through this survey by December 6th: [https://www.surveymonkey.com/r/Y9PH3WY](https://www.surveymonkey.com/r/Y9PH3WY)

Thank you for your commitment to sustainable forestry in Wisconsin, and for your contributions to Wisconsin’s 2020 Forest Action Plan.

Sincerely,

Amanda Koch  
Division of Forestry Planner  
Wisconsin Department of Natural Resources
