

Small Business Advisor - March - 2016

Topics in this edition:

- Nominations for the Wisconsin Partners for Clean Air Recognition Awards and Commuter Champion Award open until March 18, 2016
- Reminder - Emergency Engine Electronic Reports Due March 31, 2016 .

Nominations for Clean Air Recognition awards and Commuter Champion awards open until March 18, 2016

The Wisconsin Partners for Clean Air sponsors two annual award competitions to recognize businesses and organizations in Wisconsin that voluntarily take action to improve our state's air quality. The Clean Air Recognition Awards distinguish businesses and organizations for their clean air accomplishments and provide a venue for the organizations to share information about their successes with others. The Commuter Champion Award recognizes those organizations that provide exceptional transportation options to their employees.

The nomination deadline for both awards is **March 18, 2016**. The awards offer a positive image for the nominated businesses or organizations among the public, customers and employees. Organizations are encouraged to self-nominate , nominate other businesses or organizations, or forward the nomination information along to other businesses or organizations to self-nominate. Visit the Partners website for nomination guidelines and a list of previous winners: <http://www.cleanairwisconsin.org/partnersmad.php>.

Awards will be announced at the annual Clean Air Extravaganza event held in May in the Milwaukee area (event details will be posted on the Partners' website when available).

For more information, please contact Jessica Lawent at 414-263-8653 or jessica.lawent@wisconsin.gov.

Reminder - Emergency Engine Electronic Reports Due March 31, 2016

Owners of emergency generators being used in emergency demand response programs, or operated to respond to local reliability or electrical grid voltage or deviation issues, are required to submit an electronic report to the U.S. Environmental Protection Agency (EPA) by March 31, 2016. If you operate an emergency generator being used in emergency demand response programs, or to respond to local reliability or electrical grid voltage or deviation issues, see the reporting reminder below and visit EPA's website at <http://www3.epa.gov/ttn/atw/icengines/> for more information.

Owners of emergency engines > 100 HP operated or contractually obligated to be available >15 hours/year for emergency demand response or voltage or frequency deviations, or operated for local reliability must submit an annual report electronically through the Compliance and Emissions Data Reporting Interface (CEDRI) accessed through EPA's Central Data Exchange at <http://www.epa.gov/cdx>. The annual report must cover a range of information on 2015 operations as specified in CEDRI. For CEDRI help you may contact CEDRI@epa.gov.
