SBEAP Updating Consultant List

The [SBEAP Consultant List](#) is provided as a service to small businesses in Wisconsin who may need additional assistance in complying with environmental requirements. Periodically, the program updates the list to confirm the contact information is current as well as the services selected on the list. With this update we are adding Storm Water services to the list.

If your consulting firm is not currently listed, you may add your name and services to the list by completing this survey: <https://www.surveymonkey.com/r/GTDCYJC>

However, please note that to keep the list manageable we limit the number of individuals from the same company/office to 3 entries.

No evaluation has been made as to the accuracy of the services indicated on the list. Inclusion on this list does not constitute an endorsement of these companies by the DNR.
